***1: [Unlimited Data]** This is the total data usage limit for tethering, data sharing, and World Data Flat (fees apply). ※For services such as video and cloud gaming that require significant amounts of data communication or long sessions, your data speed will be restricted to a range that does not interfere with typical use of au smartphones (e.g., viewing videos at full HD quality). ※If you use a significant amount of data within a certain period, your data speed will be restricted during peak time periods. **[au Smart Value]*3:** A subscription to a service such as home Internet service is required. Usage fees and option fees apply separately. When you cancel your Internet service, you may be charged a contract cancellation fee depending on the length of your contract. (Example: au HIKARI Home, Zutto Giga Toku Plan: 3-year contract, contract cancellation fee: ¥16,500 with tax) **[2-year contract N]*2:** Unless you request otherwise, this contract will be renewed automatically every 2 years. If the contract is canceled during the term, a contract cancellation fee (¥1,100 with tax) will apply (unless you cancel during the 3-month contract renewal period, which is the month that the 2-year contract N expires and the following two months). **[5G plans]*1:** If you subscribe to these plans, discounts that are currently being applied may be discontinued. ***2:** Fees differ for calls to satellite maritime telephones and to phone numbers for which fees are set by other companies, which incur the designated calling charges. ※You cannot subscribe to both 5G NET for DATA (¥550/month with tax) and LTE NET for DATA (¥550/month with tax) at the same time. ※For cancellations during the middle of a month, the full price will be charged. ※Plans are only available for au smartphones (5G). ※5G smartphones cannot be used with 4G LTE plans.
