#### Be sure to read this manual before use

# XPERIA XZs sov35

### Cautions on using the product

- In this manual, "Xperia™ XZs" is usually referred to as "the product" In this manual, "Basic Manual", "Cautions on using the product" (this manual) "Setting Guide" and "取扱説明書 (詳細版) (Full instruction manual)"
- (Japanese) are collectively referred to as "Instruction Manual".

  In this manual, "au Nano IC Card 04" is abbreviated as "au IC card". In this manual, "microSD™ memory card (commercially available) microSDHC™ memory card (commercially available)" and "microSDXC™ memory card (commercially available)" are abbreviated as "microSD memory card" or "microSD"
- Company names and product names referred to in this manual are trademarks or registered trademarks of respective companies. In context, TM and @ mark may be omitted.

April 2017, 1st Edition 1308-7596.1

Do not use or keep in a place that is very humid, dusty, or subject to high temperature.

Doing so might cause fire, burns, electric shock, etc. For waterproofness/dustproofness, refer to "Notes on waterproof and dustproof properties" (P.26)

If children use the product, parents or guardians should give them proper instructions and do not allow them. duct in the wrong way.

Use of the product in the wrong way might cause injury. Keep the equipment out of the reach of babies and infants. Keep the equipment out of the reach of babies and infants.
Failure to do so might cause accidental ingestion, injury, electric

Be careful when using the product continuously for a long time or charging because the temperature might become warm. Also, be careful not to touch it unintentionally for a long time when you fall asleep etc.

become warm when using an app, a call, data communication watching TV or video, etc. for a long time or charging. If you are directly in contact with warmed part for a long time, it might cause a redness of skin, itch, rash, low-temperature burn etc. depending on your physical condition.

Danger Be sure to read the following before use.

Do not throw the product into fire or apply heat Doing so might cause fire, burns, injury, etc. because of ignition,

burst, heat or leaking of the internal battery.

Do not put excessive force such as sticking a nail (sharp object) into the product, hitting it with a hammer (hard object), or

Doing so might cause fire, burns, injury, etc. because of ignition burst, heat or leaking of the internal battery.

Use the adapter only on the specified power supply and voltage Using the incorrect power supply and voltage might cause fire, burns

electric shock, etc. AC adapter (sold separately): 100 VAC (Connect to the AC outlet for internal household use) AC adapter (sold separately): 100 VAC to 240 VAC (Connect to the

AC outlet for internal household use) DC adapter (sold separately): 12/24 VDC (for negative ground vehicle

When replacing a fuse in Common DC Adapter 03 (sold

separately), make sure to use the specified fuse. sing a fuse other than specified might cause fire, burns, electric shock, etc. For the specified fuse, see the users manuals that

supplied with a DC adapter.

Clean dust from the power plug.

Using it with dust adhering might cause fire, burns or electric shock.

Firmly insert a plug of the specified charging equipment (solo eparately) into an outlet or cigarette lighter socke ecure inserting might cause fire, burns, electric shock, etc

When you disconnect a power plug of the specified charging equipment (sold separately) from an outlet or cigarette lighter socket, do not apply excessive force it such as pulling the cable Instead, hold the adapter main unit to disconnect.

separately) might damage the cable causing fire, burns, electric shock, etc.

When plugging/unplugging the specified charging equipment of the specified charging equipment equipment of the specified charging equipment equipm (sold separately) into/from the product, plug/unplug it straight toward the product without applying excessive force such as

Incorrect plugging/unplugging might cause fire, burns, injury, electric

! Caution

Be sure to read the following cautions

Do not touch the specified charging equipment (sold separately) for a long time when it is connected to an outlet or cigarette Doing so might cause a burn etc.

? Caution

Be sure to read the following cautions before use.

Be careful of the cut surface not to hurt your fingers etc. when

Failure to do so might cause injury.

The Company is not liable for any damages arising, for example, from malfunction caused by combination with connected devices or software not elated to the Company. Captured image data or downloaded data may sometimes be altered or lost.

due to faults, repair or other handling of the product. The Company is no

disk, etc. Whatever the cause of the defect or malfunction may be, the Company assumes no responsibility for alteration or loss of saved data

 Contents saved in the product, such as contacts and Album data might be altered or lost by an accident, fault, repair or mishandling. Be sure to keep a copy of important contents. Note that the Company assume no responsibility for any damages or lost profits resulting from altered or lost contents. Note that contents data (both charged or free content) saved to the product

cannot be returned to the customer when the product is replaced for repair of a fault, for example. The product uses liquid crystal for its display. The display response speed may become slow when the ambient temperature is low, which is due to the property of liquid crystal and not a malfunction. The display response speed

will return to normal at room temperature. Although the display used on the product is made using high-preci-

technology, some pixels (dots) might be lit or out at all times. This is not a malfunction. You are recommended to store copies of individual data such as photos you took, videos and music on your PC by sending each file as mail attachment

povrighted data even by the above-mentioned means Do not discard the product together with regular trash. Please cooperate in the collection of the product (including optional accessories) when it is no longer needed to protect the environment and effectively use resources. We collects the product at au shops and other places.

elecommunications Business Act, and as a proof of it, the "Technical Compliance Mark 😭 an be checked with the product. Checking procedure: From the Home screen, [:::] → [Settings] → [About

If modifications of the internal components are made, the certification of conformity with the technical standard conformance etc. becomes invalid

Do not use the product with the certification invalid, as it is a violation of the Radio Law and Telecommunications Business Act. ■ Take care not to place magnetized items such as magnetic cards speakers and TV sets near the product, as it might cause a malfunction.

Putting a strong magnetism close to the product might cause a false Do not bring magnetized cards such as cash cards, credit cards and pre-

paid cards closer to the product. It might cause loss of the recorded data When you put the product in your pocket or bag, take care that the display does not come in contact with metal objects or other hard objects, as it

might cause a scratch or damage. When suddenly brought into a warm place from a cold place, or when used in a humid location or in a place where temperature suddenly changes (e.g. near the air discharge port of an air conditioner), water droplets (i.e. condensation) may be formed inside of the product. Note that when used under such conditions, the humidity might cause corrosion or a malfunction.

### If any liquid other than plain water is adhered to the product

- If any liquid other than plain water (e.g. seawater, detergent, alcohol, juices) is adhered to the product, immediately rinse it with plain water. You can wash the product under a mild flow (less than 6 liters per minute) of tap water at room temperature (5°C to 35°C) at a distance of about 10 cm from the faucet or showerhead
- If the product gets dirty, wash it with your hands holding the microSD memory card/au IC card slot cover so that they do not open. Do not use a

#### After the product gets wet

· After the product gets wet, drain water, and wipe with a clean dry cloth In cold climates, water on the product might turn to frost. Using with frosted might cause a malfunction. Do not leave the product without wiping off wate

#### ■ Rubber seals

The rubber seal on the inner edges of the cover of microSD memory card/au IC card slot is important to maintain waterproof/dustproof property. Do not damage or remove the rubber seals.

When closing the cover of microSD memory card/au IC card slot, take care when closing the cover of microsof membry candidate or card soft, aak care not to get the rubber seal caught. Forcibly closing the cover with the rubber seals caught might damage them resulting in loss of waterproof/dustproof property. Just a small particle (a hair, etc.) between contact surfaces can cause water intrusion or dust penetration.

If any liquid other than plain water (e.g. alcohol) is adhered to the rubber

seals, it might cause deterioration in durability.

Do not insert sharp objects into grooves around the cover of microSD memory card/au IC card slot. Doing so might damage or deform the product, or damage the rubber seals, causing water intrusion or dust It is recommended to replace the parts for maintaining waterproof/dustproof

property once every two years regardless of whether any abnormality is present. For information on part replacement, contact an au shop near you. ■ Heat resistance

 Do not sink the product into boiling hot water or do not splash with boiling hot water to the product. Also, do not use the product in saunas or do not expose the product to fiery winds from hair dryer etc. The product is not

 While writing or reading data to or from a microSD memory card, do not subject the product to vibration or impact, or turn off the power. Doing so

Do not cover the proximity/light sensor with your finger or put a sticker on i Doing so might hinder the proximity/light sensor from detecting the ambient orightness and functioning correctly. Do not put a sticker, etc. on the proximity/light sensor. Doing so might

while receiving a call or during a call.

Usually use the product with the cover of microSD memory card/au IC card slot firmly closed. If the cover is open, dirt or water might get inside and

cause a malfunction on the sensor and make the display always turned off

 Do not allow liquids, metal and other foreign objects to get inside the headset connection terminal, USB Type-C connection terminal, or microSD mory card/au IC card slot. Doing so might cause a malfunction Do not give strong impact on the product such as dropping, throwing,

stomping. Doing so might cause a malfunction. Do not put the product directly on sand at a beach, etc. Sand or other small

particles might get inside the earpiece/speaker, microphone, speaker, or second microphone causing the volume to drop. If sand gets inside the

# Putting stickers or sheets (e.g. commercially available protective films)

peep prevention sheets) on the display might hinder correct operation of the touch panel

touch panel close to metals or other conductive materials, as it might cause false operation of the touch panel.

### Shock

. The product is not resistant to shock. Do not drop the product or subject it to shock. Also, do not poke the earpiece/speaker, microphone, speaker, second microphone, headset connection terminal, USB Type-C connection terminal, etc. with a sharp object. Doing so might damage or deform the main unit causing water intrusion or dust penetration

# Precautions on charging

The supplied and optional accessories are not waterproof/dustproof. Check the following before and after charging.

Never charge the battery if the product is wet. Doing so might cause fire,

ourns, injury, electric shock, etc. Check that the product is not wet. If you are charging the battery just after

the product gets wet, drain water well and wipe the remaining water off with

a clean dry cloth.

Do not touch the specified charging equipment (sold separately) with wet hands. Doing so might cause electric shock. Do not splash water over the specified charging equipment (sold separately)

when using them. Do not use them near water such as in a bathroom shower room, kitchen or washroom. Doing so might cause fire, burns, electric shock, or malfunction. Do not bring them into a bathroom, etc. even if you do not charge the product with them. Doing so might cause fire, burns, electric shock or a malfunction

### Draining water when the product gets wet

Drain the following parts: Earpiece/speaker, Microphone, Speaker, Second microphone, Headset nnection terminal, USB Type-C connection terminal, Power key/Screen lock key/Fingerprint sensor. Volume key/Zoom key. Camera key, the cover of croSD memory card/au IC card slot

If water remains, clothes or bag might get wet or sound might be barely

Notes on apps

heard. Drain in the following steps.

Wipe off water remained on the product with a dry cloth, etc.

2 Hold the product firmly and shake it approximately 20 times again, then turn upside down and shake it 20 times again.

When shaking the product, check the safety around you and hold it firmly

Charging equipmen The touch panel is designed to be lightly touched by fingers. Do not apply Do not wrap the cable of the specified charging equipment (sold)

strong pressure with your fingers or sharp-pointed objects (such as In the following cases, the touch panel might not respond or errors in

Operation with fingernails

Operation with foreign object on the touch panel

Operation with protective sheet or seal on the touch panel
 Operates when the display is wet with water droplet or fogged

. Operation with wet or sweaty fingers

# 

(The internal battery of the product is a lithium-ior battery)
The internal battery is not fully charged at the time of

Li-ion 00

purchase. Charge the internal battery before using t product. Charge the internal battery if you have not used the product for a long time.

• Use in very hot or cold environments, for example, when left in an automobile with the windows closed in summer, will cause the interna battery capacity to drop and shorten the available usage time. This will also shorten the internal battery's service life. Try to use the product as far as possible at room temperature.

 $\ensuremath{\bullet}$  The internal battery gradually discharges after charging even if the product is not used. The internal battery might discharge completely after long time no use. Charge before using. • The internal battery is a consumable part. If the performance of a battery

does not recover (e.g. the usable time after each charge has become extremely short), the battery is at the end of service life, so stop use Battery is built into the product. For repair, the product must be collected to au shop etc. and charges will be incurred. And you might not use the product during certain period of time. Please be forewarned. Note that the length of service life varies depending on the usage condition, etc. The internal battery sometimes swell up as they approach the end of their

service life. This is due to the properties of lithium-ion batteries, and is not a problem in terms of safety.

(3) If water flows out from the inside of the product, wipe it off with a dry cloth

\* Face the product downward and push it on a cloth to wipe off the water.

\* Turn the upside down and wipe off the water.

4 Place a dry towel or cloth under the product and leave it for a couple of hours at room-temperature to dry. If the product is not dried enough, you can barely hear the sound. Leave

#### Notes on using Bluetooth®/wireless LAN (Wi-Fi®) functions

### Specific Absorption Rate (SAR) of mobile phones Specific Absorption Rate (SAR) of mobile phones

This model SOV35 mobile phone complies with Japanese technical regulations and international guidelines regarding exposure to radio waves.

This mobile phone was designed in observance of Japanese technical regulations regarding exposure to radio waves <sup>1</sup> and limits to exposure to radio waves recommended by a set of equivalent international guidelines. This set of ternational guidelines was set out by the International Commission on No nizing Radiation Protection (ICNIRP), which is in collaboration with the World Health Organization (WHO), and the permissible limits include a substantial safety margin designed to assure the safety of all persons, regardless of age

The technical regulations and international guidelines set out limits for radio vaves as the Specific Absorption Rate, or SAR, which is the value of absorbed waves as the specific Absorption hate, or SAH, whilen is the value or absorbed energy in any 10 grams of tissue over a 6-minute period. The SAR limit for mobile phones is 2.0 W/kg. The highest SAR value for this mobile phone when tested for use near the head is 1.178 W/kg. 2 and when worn on the body is 0.405 W/kg\*2. There may be slight differences between the SAR levels for each roduct, but they all satisfy the limit

This is due to automatic changes to the power level of the device to ensure it only uses the minimum required to reach the network. Therefore in general, the closer you are to a base station, the lower the power output of the device. This mobile phone can be used in positions other than against your head Please keep the mobile phone farther than 1.5 cm away from your body by using such as a carrying case or a wearable accessory without including any metals. By doing this, this mobile phone complies with Japanese technical regulations and international guidelines regarding exposure to radio waves. The World Health Organization has stated that 'a large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have bee pose a potential relation inst. To date, in a devise treatment effects have been established as being caused by mobile phone use." Please refer to the WHO website if you would like more detailed information.

(http://www.who.int/docstore/peh-emf/publications/facts\_press/fact\_english.htm) Technical regulations are defined by the Ministerial Ordinance Related to

Radio Law (Article 14-2 of Radio Equipment Regulations). \*2 Including other radio systems that can be simultaneously used
