setting.

Confirm Terms of Service→Tap

■ FJT21 does not support backup by Google account. When a screen for backup appears, at the first Google account setting, tap ▶ to end the setting.

2-2 Set Family use

When you have set Set Family use, you can select Set style from "Standard mode" to use FJT21 by yourself or "Family mode" to share FJT21 use with your family. Switching styles on the lock screen is available when setting to "Family mode".

On the "ARROWS Getting started" screen, tap "Set Family use"

Tap "Use in standard mode"/"Use in Family mode"

E-mail Initial settings

- To use E-mail (@ezweb.ne.jp), subscription to LTE NET is required. If you did not subscribe it when you purchased the product, contact an au shop or Customer Service Center.
- It takes from 30 seconds to 3 minutes for the initial setting depending on time zone. Wait for a while on the "Eメールアドレスの設定中です。しばらくお待ちください。 (E-mail address setting is in progress. Please wait for a while)" screen.

Initial settings are complete, E-mail address screen appears.

Tap "Complete then go next"→"Start right now"

*Tap "閉じる (Close)" to display the E-mail top screen.

In the home screen, tap 📥 (E-mail)

Changing E-mail address

Although E-mail address is automatically decided by performing Initial settings, the E-mail address can be changed.

- 1. In the home screen, \triangleq (E-mail) \rightarrow \equiv \rightarrow Tap "E-mail settings"
- 2. Tap "Other settings"→"接続する (Connect)"→"Eメールアドレスの変更 (Change E-mail address)"
- 3. Enter a security code and tap "送信 (Send)"→"承諾する (Accept)"
 - * Security code is a four digit number chosen by the customer and noted on the application form.
- 4. Enter in left section of "@" of E-mail address (changeable section) and tap "送信 (Send)"
 →"OK"

PC-mail

Set up the mail account that you usually use on your PC etc. on FJT21 to send and receive mails to/from the FJT21. Obtain information necessary for settings from your ISP in advance to make a mail account settings. To activate PC-mail, in the home screen, tap $\mathbb{R} \to \mathbb{R}$ TEmail".

Wireless LAN (Wi-Fi®) setting

Use your home wireless LAN or public wireless LAN to connect internet service.

- Before setting wireless LAN (Wi-Fi®), check network name (SSID) and security key (password) you want to use.
- Operate in a place where signal of connecting access point can be received.

In the home screen, tap 🕸

STATE STATE OF STATE

If connecting access point is not detected, register the access point manually. To register manually, tap "ADD NETWORK" and enter network SSID and security information.

Tap an access point you connect

Tap "Connect"

 Tap and enter a password (security key) set in the access point

* If you select a network without security setting, this screen does not appear.

Example:
When Security is "WPA2 PSK"

When connected to access point, "Connected" appears on the selected network, and icon (a) appears on the status bar.

Easy Wi-Fi® network connection

You can connect using a wireless LAN (Wi-Fi $^{\circledR}$) access point supporting AOSSTM or WPS with simple operation.

In the home screen,
→ Tap "Wi-Fi Easy Settings"→"Easy Setting"/"AOSS system"/"WPS system" and then operate on the access point

Importing/Exporting contacts

Use NX! Contact to export contacts data to microSD card (backup) or import contacts data saved in the microSD card (restore). You are recommended to export data regularly to protect important data.

To import, tap "Import from SD card"

When an account se screen appears, seli

—To export, tap "Export to SD card"→Select data to export →Tap "OK"

When an account selection screen appears, select an account to import.
When there are several files, select a file to import.

Backing up E-mails

You are recommended to save backup data of E-mails of Inbox, Outbox, Unsent box to microSD card.

- In the home screen, \(\bigsim \) (E-mail) → \(\bigsim \) Tap "E-mail settings" → "Backup/Restore"
- Tap "Mail Backup"→"OK"→Mark a checkbox you want to back up →Tap "OK" When microSD card is installed, data is saved to "/mnt/external_sd/private/au/email/BU" folder.
 - When microSD card is not installed, data is saved to "/storage/emulated/0/private/au/email/BU" folder in internal storage.

Data transfer to microSD card

Data saved in the internal storage of FJT21 can be transferred to microSD card.

- Still images and videos data can be also transferred to microSD card by "Gallery" application.
 Data moved to microSD card can be restored by setting back to the original folder in the
- internal storage.

 * microSD card is not included. Please prepare microSD card (commercially available) as required.

Tap "Home"→Long-touch a folder to store the data→Tap "Copy"/"Move"

Tap "SD Card"→Tap a folder to copy/

Data saving folders

Data type	Folder location in internal storage
Still images and videos shot with Camera	/storage/emulated/O/DCIM/Camera (When "Save" is set to "Terminal")
