Notes on usage

INFOB Α

Be sure to read this manual before use

January 2015, 1st Edition

When adjusting the volume with an earphone, etc. inserted into the product, raise the volume a little at a time. If you raise the volume so much from the outset, sudden loud noise from the earphone, etc. might adversely affect your ears.

When using a charging equipment or external device, insert/remove the connector straight to/from the terminal. Make sure the orientation of the connector. Unless it's correct, it may cause damage or a fault.

Main unit

Do not puncture the product with a nail, hit it with a hammer or step on it. Doing so might cause fire or damage.

WARNING

Be sure to read the following warnings before use.

For using the product in hospitals or medical institutions, abide by the instructions of that hospitals or medical institutions. Turn off the product where use of the product is prohibited. Failure to do so may affect electronic equipment and electronic

- 7 -

Before cleaning the charging equipment, unplug its power plug of the specified charging equipment (sold separately) from the outlet or cigarette lighter socket. If the plug remains plugged in when you clean the equipment, it might cause a short circuit.

Wipe off dust on the power plug. Failure to do so might cause fire,

Install and position in-car devices where they do not hinder driving or safety equipment such as airbags. It might cause a traffic accident. Install in-car devices following the instructions of their

When the specified charging equipment (sold separately) is not to be used for a long time, disconnect the power plug from the power outlet. Doing so might cause fire or a fault.

Do not use in places subject to direct splashing with water, pet urine or other liquids. Doing so might result in faults resulting from overheating, fire, electric shock, short-circuiting of electronic circuits, or injury. In the event that the product is splashed with liquid, immediately disconnect power plug of the specified charging equipment (sold separately)

CAUTION Be sure to read the following cautions before use.

- 14 -

Exemptions

The Company is not liable for any damages arising from earthquakes, lightning, storms, floods or other natural disasters, as well as fires, actions by third parties other accidents, intentional or mistaken misoperation by the customer, or use under other unusual conditions outside the responsibility of the Company. The Company is not liable for any incidental damages (change)

disappearance of described content, loss of business income, disruption of business, etc.) arising from use or inability to use the product.

© The Company is not liable for any damages arising from failure to observe the described content of this manual.

The Company is not liable for any damages arising, for example, from caused by combination with connected devices or software not related to the Company.

© Captured image data or downloaded data may sometimes be altered or lost due to faults, repair or other handling of the product. The Company is not liable for any damage or lost income resulting from recovery of these data. It is recommended you keep a copy of important data on your PC's hard disk, etc. Whatever the cause of the defect or malfunction may be, the

Company assumes no responsibility for alteration or loss of saved data.

The Company" as appears in this manual refers to the following companies:

Sold by: KDDI CORPORATION • OKINAWA CELLULAR TELEPHONE COMPANY

Manufactured by: KYOCERA Corporation

The content of this manual is subject to change without notice.

Every effort has been made in the preparation of this manual. Should you notice any unclear points, omissions, etc., feel free to contact us.

Safety Precautions (Observe Strictly)

■ Before using this product, thoroughly read these safety precautions for proper use. After reading, store the precautions in a safe place. These "Safety Precautions" describe instructions that should be observed to prevent

damage to property or injury to the customer or others using the product.

These instructions are divided into the following categories.

- 1 -

Turn off the product or put it in Airplane mode before boarding an airplane. Use of cell phones on board is restricted. Follow the structions of each airline Failure to do so may adversely affect on-board electronic equipment

Prohibited acts related to cell phone usage on an airplane may be

When using the product near an implanted pacemaker, implanted dioverter-defibrillator or other electronic medical device, radio waves might affect these units and devices. So, please observe the Those with an implanted pacemaker or implanted cardioverter-

defibrillator should carry or use the product at least 15cm away from the pacemaker or cardioverter-defibrillator. 2. Turn the product off or set "Airplane mode" when it may be difficult to keep at least 15cm away such as in a situation you cannot move freely, since there may be people with a cardiac

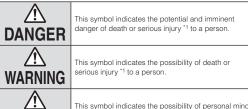

pacemaker or implanted cardioverter-defibrillator nearby. When a medical institution has laid down designated areas where use of the product is prohibited or is not allowed to be brought in, abide by the instructions of that medical institution 4. When using electronic medical devices other than an implanted pacemaker and implanted cardioverter-defibrillator outside a medical institution (e.g. home medical treatment), check individually with the manufacturer of the electronic medical

device regarding the influence of radio waves. Stay alert to your surroundings when calling, messaging, browsing the Internet, shooting photos, playing games, watching TV or listening to music. Failure to do so might cause a fall or traffic

Do not send data by infrared communication with the infrared por pointing toward eyes. Doing so might affect eyes. Also, sending data with the infrared port pointing toward some other infrared

device might cause false operation, etc

charging equipment, au Nano IC Card 04, peripheral

Do not use, store or leave the product in hot places (e.g. by the fire, near a heater, under a kotatsu, in direct sunlight, in a car in the hot sun). Doing so might cause ignition, rupture, fault, fire or injury.

Before entering an area where flammable gas is generated such as a gas station, be sure to turn off the product. Do not charge the battery. Failure to observe these precautions might cause the gas to catch fire. In addition, when using Osaifu-Keitai® at a gas station be sure to turn off the power in advance. (If Osaifu-Keitai® lock has been set, cancel the lock before turning off the power.)

Do not put the product in a cooking apparatus such as microwave oven or a pressure vessel. Doing so might cause ignition, rupture, fault, fire or injury.

Do not throw the product into a fire or heat it. Doing so might cause fire, rupture or fire.

Do not short-circuit the external connection terminal, earphone microphone terminal, etc. Do not allow conductive foreign objects (metal fragments, pencil leads, etc.) to come into contact with or terminal, etc. Doing so might cause a fire, burns, a fault due to heat

product, it might cause overheating or a fault.

■ Internal battery

(The internal battery of the product is a lithium-ion battery.) The internal battery is not fully charged at the time

of purchase. Charge the battery before using the

Be sure to read the following hazards before

If the leaked liquid gets on your skin or clothes, immediately rinse it off with water to avoid injury. If the liquid gets into your eyes, do not rub but wash your eyes with water, and immediately consult a doctor to avoid the risk of losing your eyesight. If the liquid gets on a device, wipe it off without touching it.

The internal battery is a consumable item. If the performance of the internal battery does not recover (e.g. the usable time after each charge has become extremely short), the battery is at the end of service life, so stop use. Failure to do so might cause overheating ignition, rupture or leakage. Since the battery is built into the product, we keep your product and replace the battery for a fee. You may not use the product for a certain period. The life time of the internal battery depends on the usage etc.

- remove water so that water does not remain in the earnhone microphone. rminal, then dry it before using. When you put the product in your pocket or bag, take care so that the play does not come in contact with metal objects or other hard objects.
- When suddenly brought into a warm place from a cold place, or when in a humid location, or when used where temperature suddenly changes (e.g. near the air discharge port of an air conditioner), water droplets (i.e. condensation) sometimes are formed inside the product. Note that when used under conditions such as this, humidity might cause corrosion or a

Doing so might cause scratching or damage.

- When wiping the display, wipe with a soft, dry cloth. Use of a moistened cloth, glass cleaner or other similar liquid might cause a fault.

 When connecting/disconnecting the external device to/from the external
- connection terminal or the earphone microphone terminal, make sure that the connector or plug of external device is straight with the terminal.

 Note that applying unnecessary force with the external connection terminal
- or the earphone microphone terminal connected to the external device might cause damage.

 • Do not discard the product together with regular trash. Please cooperate
- in the collection of the product when it is no longer needed to protect the environment and effectively use resources. Old product is collected at au shops and other places.
- Insert only a microSD memory card into the memory card slot on the product.
- Do not exert excessive force when attaching/removing a microSD memory card. Doing so might injure your hands or fingers. While writing/reading data to/from a microSD memory card, do not subject.
- the product to vibration or impact, or turn off the power. Doing so might cause loss of data or a fault. When hearing call voice, use the product with the receiver touched to
- the center of your ear. Failure to do so may make call voice to be heard obscurely because the receiver (voice vent) is covered by the perimeter of

-21-

Important items to remember before use

- Make sure that the card slot cover is · Waterproofness/dustproofness is
- only effective when the covers are securely closed.
- Just a small particle (a hair, a grain of sand, etc.) on the seals can cause water or dust leak.
- Do not open/close the card slot cover if the main unit or your hands are wet. Do not insert an earphone when water remains in the earphone microphone terminal.

How to close the card slot cover

After stowing the cover hinge, press on the cover ① in the direction of arrow venly with the flat part of your finger. Rub your finger over the cover in the irection of arrow (2) to ensure that the cover is not partially open

• Take care not to cover the microphone with your fingers during a call. The other party may not be able to hear your voice clearly. When using handsfree call, note that the speaker may emit loud sound.

- ake care to keep the speaker at a safe distance from your ears. Do not cover the sensor with your finger or put a sticker on it. Doing so may
- hinder the sensor from detecting the ambient light level and functioning Do not put a sticker, etc. on the proximity sensor. Doing so may cause
- the sensor to malfunction and make the display always turned off while receiving a call or during a call.
- Touch Panel/Touch sensor key
- Use your finger to operate the touch panel/touch sensor key. Do not use ballpoint pens, pencils or other sharp-pointed objects. Using such objects does not only hinder correct operation of the touch panel, but also might cause scratching or damage to the display/touch sensor key.
- Do not put stickers or sheets (e.g. commercially available protective films peep prevention sheets) on the display/touch sensor key. Doing so might hinder correct operation of the touch panel/touch sensor key.

 Do not operate the touch panel with fingernails. Doing so might result in
- split nails or jammed fingers.

 If the display surface/touch sensor key is dirty or wet with sweat or water
- it may not function correctly. In such case, wipe the display surface/touch sor key with a dry, soft cloth. When carrying the product in your pocket or bag, take care not to put the
- touch panel close to metals or other conductive materials, as it might cause false operation of the touch panel/touch sensor key.

■ Internal hattery

- se in very hot or cold environments, for example, when left in an automobile with the windows closed in summer, will cause the battery capacity to drop and shorten the available battery usage time. This will also shorten the internal battery's service life. Try to use the product as far as possible at room temperature.
- fter the internal battery is charged, battery power decreases bit by bit even if the product is not used. The internal battery may be discharged if the product is not used for a long time. We recommend to charge the product before use.

- 22 -

Do not immerse the product in soap water, detergent water, or water with Do not immerse the product in seawater, a swimming pool or hot spring.

- o not immerse the product in any liquid (alcohol, etc.) other than water Do not place the product directly on sand at a beach, etc. Sand or other
- small particles might get inside the microphone, receiver or speaker, causing the volume to drop. If sand gets inside the product, it might cause erheating or a fault.
- Do not leave the product in a humid place such as a bathroom or kitchen for an extended period of time.

Tips for comfortable use

- Once the product gets wet, water may remain in gaps of the product.
 Shake the product well to drain water. Especially make sure to drain water. remaining in the key parts, external connection terminal and earphone
- Even after water is drained, the inner parts might be still wet. Although you can use the product, do not place it near things that must not get wet. Take care not to wet your clothes, bag or contents of the bag. Drain water if it becomes temporarily hard to hear the sound due to water

■ Notes on various usage scenes

You can make calls holding the product with wet hands in the rain without

- The rain in this case means a moderately-heavy rain (less than 20 mm per
- Water drops on the display might cause errors in the touch panel operation.

- 29 -

■ Precautions on charging

The supplied and optional accessories are not waterproof/dustproof. Be sure to check the following points before and after charging. Never charge the battery if the product is wet. Doing so might cause electric

- 28 -

- shock or short circuit resulting in fire, a fault or burns.

 Check that the main unit is not wet. If you are charging the battery just
- after the product gets wet, drain water well and wipe remaining water off with a clean dry cloth before placing it in Desktop Holder (KYV33PUA) and connecting the microUSB plug into the external connection terminal.
- Do not touch the specified charging equipment (sold separately) or Desktop Holder (KYV33PUA) with wet hands. Doing so might cause electric shock. Do not splash water over the specified charging equipment (sold separately) or Desktop Holder (KYV33PUA). Do not use it near water such as in a bathroom, shower room, kitchen or washroom. Doing so might cause fire, electric shock, injury or a fault. Do not bring it into a bathroom, etc. even when you are not charging with them. Doing so might cause fire, electric shock, injury or a fault.

Notes on using Bluetooth®/Wireless LAN (Wi-Fi®) function

- The Bluetooth® function of the product conforms to domestic standards of Japan, FCC standards and EC directive, and has been certified.

 The wireless LAN (Wi-Fi®) function of the product conforms to domestic standards of Japan, FCC standards and EC directive, and has been
- The 2.4 GHz band used by wireless LAN (Wi-Fi®) and Bluetooth® devices is operated by various other devices. For this reason, the communication speed and connectable range may be decreased, or disconnection may
- occur, due to interference by other devices. Do not use this product in places where electromagnetic waves are generated or near electric products, AV and OA equipment, or other
- nagnetized devices.
- Subjecting this product to magnetic or electrical noise might increase noise and prevent it from performing communications. (This product is particularly susceptible to noise when it used near a microwave oven.) - 35 -

- Using this product near a TV, radio or similar appliance might cause
- reception interference and disrupt TV images. Searching might not be successful if there are multiple wireless LAN (Wi-Fi®)
- access points near to the product or the same channel is being used. • Use of cell phones on board is restricted. Follow the instructions of each
- The communication speed and connectable range vary depending on the distance between communication devices, obstacles and the devices used.

Cautions on using 2.4GHz band The frequencies used by the Bluetooth® and/or Wireless LAN (Wi-Fi®) function

of this product are in the 2.4 GHz band. In this frequency band, other similar wireless stations, in-plant wireless stations for mobile unit identification that require a license for use, such as factory production lines, specific smallpowe vireless stations that do not require licenses, amateur wireless stations (collectively called "other wireless stations" from here on) are operated in addition to home electrical appliances such as microwave ovens, devices for industrial, scientific and medical devices.

- 1. Before using the product, make sure that "other wireless stations" are not in
- 2. In the event that instances of radio wave interference have occurred between the product and "other wireless stations", immediately either relocate the product or stop operation of the device (stop emission of radio
- 3. If you are unclear on any points or are troubled by anything, contact an au shop or Customer Service Center.
- Connections between this product and all other Bluetooth® and wireless LAN (Wi-Fi®) devices have not been confirmed. Therefore, connections with all Bluetooth® and wireless LAN (Wi-Fi®) devices are not guaranteed.
- This product supports security features for wireless communications that are compliant with the Bluetooth® and wireless LAN (Wi-Fi®) standard specifications, but the security may not be sufficient depending on the usage environment and configuration. Be careful when making data communication using Bluetooth® or wireless LAN function (Wi-Fi®).

- Wireless LAN (Wi-Fi®) has the advantage that it can be freely connected
- obtain unauthorized access if security settings have not been configured. You are recommended to configure security settings before use at your decision and responsibility.

 The Company assumes no responsibility for leakage of data or information
- that may occur during Bluetooth®/wireless LAN (Wi-Fi®) communication • Since Bluetooth® and wireless LAN (Wi-Fi®) functions use the same
- frequency band, using the both functions at the same may cause radio wave interference resulting in decreased communication speed or disconnection from the network. If connection fails, stop using either of the Bluetooth® and wireless LAN (Wi-Fi®) functions. luetooth® and wireless LAN (Wi-Fi®) functions of this product use frequencies

in the 2.4 GHz band. 2.4FH1/XX1

Bluetooth® function: 2.4FH1/XX1

This product uses the 2.4 GHz band. FH-SS is used as the modulation scheme. The interference distance is about 10 m or less. Bands of mobile unit identification devices cannot be avoided

• Wireless LAN (Wi-Fi®) function: 2.4DS4/0F4

This product uses the 2.4 GHz band. DS-SS and OFDM are used as the nodulation schemes. The interference distance is about 40 m or less. This means that all bandwidths are used, and that bands of mobile unit identification devices can be avoided.

Available channels vary depending on countries For use in airplane, check with the airline company in advance.

- 23 -

To avoid lowering the battery performance or decreasing battery life, do not

Charge the battery before using the product for the first time after purchase, or if you have not used the product for a long time.

The internal battery is a consumable item. If the performance of the internal

battery does not recover, the battery is at the end of service life, so stop

use. Since the battery is built into the product, we keep your product and

replace the battery for a fee. You may not use the product for a certain period. The life time of the internal battery depends on the usage etc.
