Sold by: KDDI CORPORATION  
OKINAWA CELLULAR TELEPHONE COMPANY  
Manufactured by: KYOCERA Corporation

## Basic Operation

For explanations of basic functions, refer to "Basic Manual".

(Home screen (au Basic Home))

**(Chrome) Chrome icon**  
Use Google Chrome to view Web pages.

**Navigation bar**

- (BACK):** Return to the previous screen. When  appears in the character entry screen, tap this button to hide the keyboard or menu.
- (HOME):** Display the home screen. Long-touching this button activates Google.
- (RECENTS):** Show recently-used apps. Long-touching this button activates the multi-window during apps activation. When the multi-window activates, this button is changed to . Long-touching this button deactivates the multi-window.

**Power button**

- The power button is on the front**
- Turning the Power On**  
Press and hold (Power button) until the incoming light turns on.
- Displaying Home screen**  
From the Start screen, slide the screen.

**Display**

Touch directly with your finger to operate.

- Tap/Double-tap**  
Lightly touch a screen and then immediately release your finger. Tapping a screen twice in the same position is called double-tap.
- Flick**  
Touch the screen and flick up/down/left/right.
- Long-touch**  
Keep touching a screen.
- Slide**  
While lightly touching the screen, trace to the desired direction.
- Drag**  
While lightly touching the screen, trace to the desired position.
- Zoom-in/Zoom-out**  
While touching the screen with two fingers, move the fingers away and closer to each other.

## Character entry

For character entry, there are flick input and input by tapping a key repeatedly.

**Flick input**  
Tap a key to display characters like the right screen that can be input by flick input. Flick to the direction of the character to enter.

**Character entry mode switch key**  
Tap to switch character type.

(Character entry screen (10-key keyboard))

## Entering with 10-key keyboard

This is a keyboard on which characters are arranged in the same order as the common cell phone. The character is switched every time you tap the keyboard.

- To enter "No"  
Tap \* 0 \* two times → \* 0 \* → \* 0 \* three times.

## Setting Silent mode

Press and hold (Volume down button) for at least one second to set the Silent mode to ON/OFF. To change the Silent mode type, press / (Volume up button) → [Vibrate] / [Mute] / [Drive] when the Silent mode is set.

Alternatively, from the home screen → [基本機能 (Basic Function)] → [Settings] → [Sound] → [Silent mode] → [Silent mode type] → Change the Silent mode type.

## Setting the App Permissions

The first time you launch an app/function that accesses the functions or information of the product, a confirmation screen for requesting access permission appears. If the confirmation screen appears, confirm the content and tap "DENY"/"ALLOW".

- If you do not permit, apps/function may not be activated or use of function may be restricted.
- For some apps/functions, an explanation screen for the permission appears. A confirmation screen may appear in several times and its content may vary. Confirm the content and follow the on-screen instructions.
- In this manual, description of such confirmation screen may be omitted.

## Auto Assist

It controls the functions automatically according to your actions or lifestyles such as the Silent mode is set when your getting on the train is detected, the snooze is canceled when your walking is detected, it notifies you with vibration when there are unread notifications and you pick up the phone, etc. Set in the following steps.

- From the home screen → [基本機能 (Basic Function)] → [Settings] → [Auto assist] → Set each item

## Initial Settings

When you turn on the product for the first time after purchasing the product, follow the on-screen instructions to set language, functions and services.

**11** Lookout for au  
 [Activate] / [Skip activation] → [Next]\*<sup>1</sup>

**12** データを戻す  
 When the "データを戻す (Restore data)" screen is displayed, mark data type to be restored → [次へ (Next)]

**13** おすすめアプリ  
 Select apps to install → [次へ (Next)]

**14** Initial Setting Completed  
 [Finish]

\*1 To complete the initial setting of Lookout for au, permit the access permission on each request screen.

**E-mail**

To use E-mail (@ezweb.ne.jp), subscription to LTE NET is required. If you did not subscribe it when you purchased the product, contact an au shop or Customer Service Center. Your E-mail address is determined automatically after initial setting. You can change the E-mail address later.

**Initial settings** \* You cannot make initial settings in Wi-Fi® communication.

**1** Home screen → [Home icon]

**2** Check your E-mail address → [閉じる (Close)]

**3** Check the contents, [同意する (Agree)] → [完了 (Done)]\*<sup>1</sup>

\*1 If an E-mail function explanation screen is displayed, follow the on-screen instructions.

**Checking your e-mail address**

**1** Home screen → [Home icon]

**2** [Home icon]

**3** [E-mail information]

**4** Your E-mail address is displayed.

**Changing your e-mail address**

**1** Home screen → [Home icon]

**2** [Home icon]

**3** [Eメールアドレスの変更へ (To Change E-mail address)]

**4** Enter the security code → [送信 (Send)]

**5** Check the contents, then [承諾する (I accept)]

**6** Enter E-mail address → [送信 (Send)]

**7** [OK]

**8** [閉じる (Close)]

**Basic Manual app**

**Downloading "Basic Manual app"**

**1** Home screen → [au Supports] → [Basic Manual]

**2** [UPDATE]

**1** Home screen → [au Supports] → [Basic Manual]

**2** The front cover of Basic Manual is displayed.

\* If an instruction screen (how to use this app) is displayed, follow the on-screen instructions.

**Making a Call**

**Adding new contact and making a call**

**1** Home screen → [基本機能 (Basic Function)] → [Contacts]

**2** [Home icon] → Enter necessary items → [SAVE]

**3** [Home icon]

\* If the account selection screen is displayed, select an account to use.

**Making a call from the call history**

**1** Home screen → [Home icon] → Tap "RECENTS" tab

**2** Tap "\*" of a party to call

**Checking your own phone number (Profile)**  
 Operate as follow to check your own phone number.  
 Home screen → [基本機能 (Basic Function)] → [Settings] → [Profile] → Profile screen appears.

**Receiving a Call**

You can receive a call in the following steps.

**Calling**

**1** Receiving screen → [ANSWER]

**2** Calling starts.

**3** To end the call, [End call]

**Receiving the screen in sleep mode or while the start screen is displayed**  
 Follow the on-screen instructions.  
 \* To answer the call, slide [Home icon] right.

**Answering with Auto answering**

Answer by the answering memo message and record a message of the party when you cannot answer calls.

**1** Receiving screen → Tap the operation panel

**2** [Auto answering]

**3** [RECORD]

**4** The caller hears the guidance.

**5** To answer the call, slide [Home icon] right

**Answering with SMS**

Reject an incoming call and answer with SMS. Operate as follow to answer with SMS.

Receiving screen → Tap the operation panel → [Message] → Select a message → [SEND] → SMS message is sent.

**Forwarding an incoming call without answering**

Forward an incoming call to the forwarding phone number or remote operation of voice mail service. Forward the incoming call in the following steps.

Receiving screen → Tap the operation panel → [Call forward] → [FORWARD] → The incoming call is forwarded.

**Setting Display**

Set the screen brightness and backlight time of the screen.

**Adjusting the screen brightness level**

**1** Home screen → [基本機能 (Basic Function)] → [Settings] → [Display]

**2** Slide the indicator of "Brightness level" left/right

\* To make brighter, slide the indicator right. To make darker, slide the indicator left.

**Increasing the backlight time of the screen**

**1** Home screen → [基本機能 (Basic Function)] → [Settings] → [Display]

**2** [Sleep] → Select the lighting time

**Setting Wi-Fi®**

Use your home Wireless LAN (Wi-Fi®) or public wireless LAN to connect to the Internet. Main settings are as follows.

<b>WPS system</b>	Use for registration of access point compatible with Wi-Fi Protected Setup™ with WPS mark.
-------------------	--

\* If you turn on wireless LAN (Wi-Fi®) function, battery consumption increases. You are recommended to turn wireless LAN (Wi-Fi®) function to OFF when not using wireless LAN (Wi-Fi®) function.

**1** Home screen → [基本機能 (Basic Function)] → [Settings]

**2** [Wi-Fi]

**3** Turn "ON" and [Wi-Fi]

Available Wi-Fi® networks are listed. Select a Wi-Fi® network to connect → Enter a password as required → [CONNECT] to connect the Wi-Fi® network.  
 If a Wi-Fi® network you want to connect cannot be detected, tap "Add network" and connect the Wi-Fi® network manually.

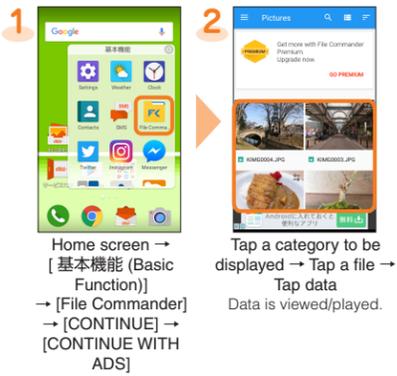

**Using WPS system access point**

**4** [Advanced] → [WPS Push Button] / [WPS Pin Entry]

**5** For using WPS button, tap "WPS Push Button" and then keep pressing WPS button of access point to set to WPS mode. An access point is automatically detected and registration starts. For entering WPS PIN, tap "WPS Pin Entry" and enter displayed PIN code for access point, then registration starts.

## Viewing/Playing Data

By transferring data from the previously used au phone to a microSD™ memory card, you can insert the microSD memory card into this product and view/play still image or movie data using "File Commander" in the product. When you activate for the first time, the Terms and Conditions appears. Follow the on-screen instructions.

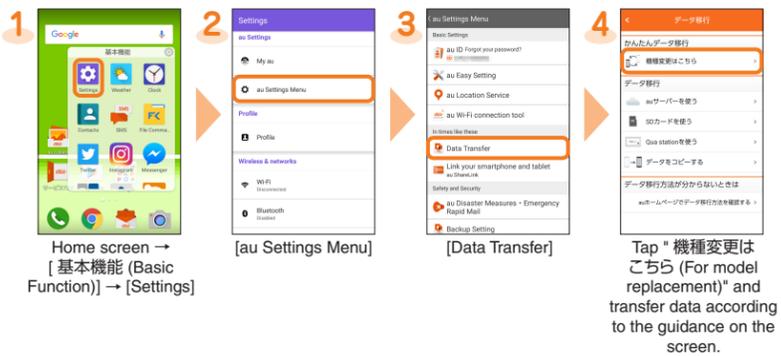

\* Copyrighted data on the previously used au phone cannot be transferred to the product. However, some Chaku Uta Full®, Video Clip, Chaku Uta Full Plus® may be able to be transferred and played on the product with the same phone number by backing up with LISMO Port Ver 4.2 or later.

## Transferring data from au Settings Menu

Restore/back up data from/to your previously used au phone to/from this product using microSD card or the au server.

- To return data using an au server, store the data from the old au phone to the au server beforehand. Setting an ID is required for using an au server (If the old au phone does not have au Settings Menu, use Friends Note app or auCloud app).
- For restoring data using microSD memory card, save the data to the microSD memory card using your previously used au phone in advance (If the old au phone does not have au Settings Menu, use au backup app).

### Using "Data Storage App"

To use "Data Storage App" to back up photos, contacts, etc. to au server automatically, set as follows.

Home screen → [基本機能 (Basic Function)] → [Settings] → [au Settings Menu] → [Backup Setting] → Select a data type to back up automatically
