AQUOS R2

SHV42

Setting Guide

Thank you for buying the "AQUOS R2 SHV42" (simply called the "product" from here on). This manual describes settings for using the product.

* For illustrations and descriptions in this manual, refer to "Basic Manual" available on the au homepage.
* Descriptions in this manual are based on Android™ version 8.0.
* The company names and product names appearing in this manual are trademarks or registered trademarks of their respective holders.
* Phone illustrations and screen shots are for descriptive purposes only, and may differ from the actual product.

やめましょう、歩きスマホ。

キケン！水ぬれ充電。　濡れた状態での充電は、異常な発熱・焼損などの原因となり大変危険です。

When using the product
● The battery is built into the product, and cannot be removed by the customer.
● To force the power off, hold □(⏻) down for 8 or more seconds (Release your finger after the product vibrates to turn the power off).

Using "Online Manual" (Japanese)
You can check "Online Manual" (Japanese) that describes detailed of various functions by operating the product as follows.

On the App list screen, [Support]. ▶ [取扱説明書] (Online Manual) (Japanese).

Also, you can check "Online Manual" (Japanese) on the au homepage.
https://www.au.com/online-manual/shv42/

Basic Operations

For detailed operations, refer to the Online Manual (Japanese).

You can switch the display language for function names and other items to English.
● On the home screen → "App list screen" → [設定] (Settings) → [システム] (System) → [言語と入力] (Languages & input) → [言語] (Languages) → [言語を追加] (Add a language) → [English] → [United States] → Long touch "English (United States)" and drag it to the top of the list.
① Display
Touch it directly with your fingers to operate.
② ◁ (Back key): Tap it to return to the previous screen.
③ ○ (Home key): Tap it to display the home screen.
④ □ (Recent Apps key): Tap it to display Recent Apps screen.
⑤ □(⏻) (Power key): Hold it down to turn the power on. Hold it down while the power is turned on → [Power off] to turn it off.
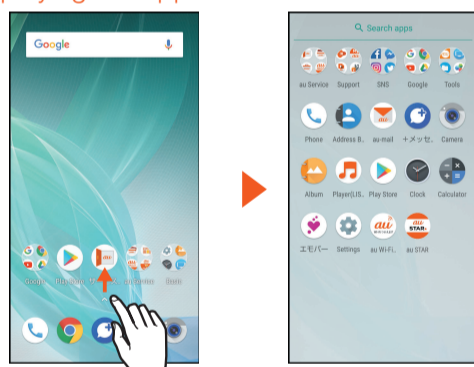

Unlocking the screen
Unlock the screen by swiping "🔓" up.
● If a password, etc. is set for the screen lock, it is displayed as "🔒".

Displaying the App list screen

On the AQUOS Home screen, swipe the screen up ▶ The app list screen is displayed.

■ App Permissions Settings
When you activate applications/functions to access to the function or information of the product for the first time, the confirmation screen for requesting the permission of access authority is displayed.
When the confirmation screen is displayed, check the displayed contents carefully and follow the on-screen instructions.
● The explanation screen for permissions may be displayed depending on the applications/functions. Also, multiple confirmation screens may be displayed or the displayed contents may differ. Check the displayed contents carefully and follow the on-screen instructions.
If you deny the permission, the application/function may not be activated or the use of function may be restricted.
● In this manual, some description of the confirmation screens may be omitted.

Initial Settings

The Google™ initial settings screen is displayed automatically when you turn the power on for the first time. Follow the on-screen instructions to set each function.
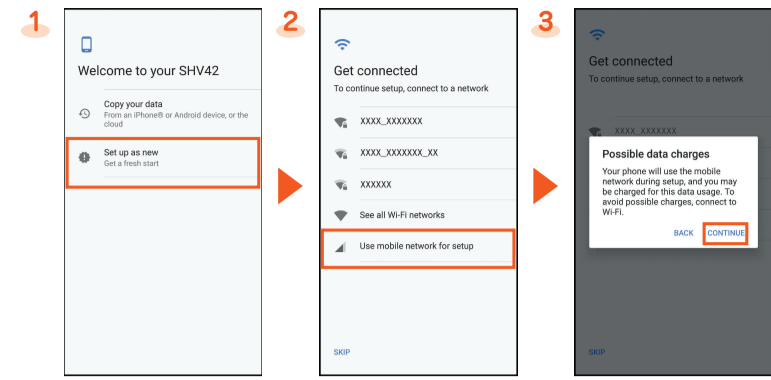

■ STEP1: Language Setting

1 [日本語(日本)]. ▶ 2 Select the language. ▶ 3 [LET'S GO].

8 Mark the applications to install → [Next]

9 Confirm the contents and mark the item to set up → [Next].*4

10 [Finish]*5.

*1 When updating apps in the product, mark "Update".
*2 The input screen is displayed only when registering au ID for the first time.
*3 The confirmation screen for app permissions is displayed several times. Operate in the same way.
*4 To use the "Data Storage App" application and automatically store photos to the au server, mark "Backup Setting".
*5 If there are any data stored by "Data Storage App" application, you can restore them from it. Tap "Restore from backup now" and follow the on-screen instructions.
• Alternatively, on the home screen → "App list screen" → [Settings] → [au Settings] → [au Settings Menu] → [au Initial Setting].

How to Transfer Data with the au Settings Menu

You can return/store data from an old au phone to this product using a microSD™ memory card or au server. To protect important data, be sure to save (back up) data periodically to a microSD™ memory card or au server.
●To return data using an au server, store data from the old au phone to the au server beforehand. To use the au server, you must set an au ID. (If the old au phone does not have au Settings Menu, use au Cloud application.)
●To return data using a microSD™ memory card, save the data from the old au phone to the microSD™ memory card beforehand. (If the old au phone does not have au Settings Menu, use the au backup application.)

1 On the home screen → "App list screen" → [Settings].

2 [au Settings] → [au Settings Menu].

3 [Data Transfer].*

4 Select "機種変更はこちら" (If you have changed a model) and transfer data by following on-screen guidances.

* If a confirmation screen is displayed for terms of use/privacy policy, follow the on-screen guidances.

Automatically Storing Photos
Use the following steps to set automatic backup of photos to the au server using the "Data Storage App" application. You can automatically store them only with a Wi-Fi® connection.
●On the home screen → "App list screen" → [Settings] → [au Settings] → [au Settings Menu] → [Backup Setting] → Select the type of data to store automatically.

au-mail Settings and Changing au-mail Address

au-mail is a service which enables you to exchange e-mails with other cell phones which support e-mails and with PCs. An e-mails address is set automatically in the initial settings. You can change the e-mails address set in the initial settings.
●You cannot make the initial settings via Wi-Fi® communication.

■ Initial Settings
• If you have changed a model, an au-mail address from an old au phone is displayed.

1 Home screen → [✉].

2 Confirm the contents → [Agree].

3 Check au-mail address → [閉じる] (Close).

■ Checking the Usage Method of au-mail Address

1 On the home screen → [✉].

2 [≡].

3 [Operation guide] → Select the usage method to check.

■ Changing au-mail Address
