- [Mail Backup] → [OK]
- Select character code for backup data → [OK]
* For character code, tap [Help] to check.
- Mark to back up mails → [OK]

- Mail data is saved in the internal storage (/storage/emulated/0/private/au/email/BU).
- If a microSD memory card is attached, data is saved in the microSD card (/storage/sdcard1/private/au/email/BU).
- To back up mail data or mail settings (notification settings, filtering settings etc.) all at once, back up from "Whole Backup".

Making a call

Direct input calling

- From the Home screen, [Phone]
- All your calls will appear here
- Enter a phone number → [Call]

Calling from Contacts

- From the Home screen, [Contacts]
- Tap a party to call
- Tap a phone number or [Call]

Calling from call log

Tap the party from "Top Contacts" or "Recent calls" that is displayed when tapping [Call] in the Home screen.

Calling overseas from au cell phones (au International Call Service)

You can make international calls without any special procedure from the product. On the phone number input screen → Enter an access code, country code, area code*, and the phone number of the other party → [Call]
* If the area code starts with "0", Enter it without including the "0". (There are some exceptions such as fixed-line phones in Italy or Moscow).

Receiving a call

Answering a call

- Drag [Answer] right
* To reject an incoming call, drag [Decline] left on the receiving screen
- Start a call
- To end the call, [End]
* You can add/display contacts, create a SMS or make a call on call end screen.

Answering a call (pop-up display)

- [Accept]/[Speaker]
* To reject an incoming call, tap [Decline]
- Start a call
* Show/hide pop-ups with [Show/Hide]
- To end the call, [END]

Transferring data from au Settings Menu

Import or export data between this product and your previous au cell phone using microSD memory card or au Smart Pass

- To import or export data using au Smart Pass server, set au ID.
- To import data using microSD memory card, save data to microSD memory card using your previous au cell phone in advance.

Importing data from au Settings Menu

- From the Home screen, [Settings]
- [Settings] → [au Settings Menu]
- [Data Transfer]
- [データを戻す (Import data)]
- Select an import method
* To import data from [auスマートパスから戻す (Import from au Smart Pass)] (exported data on au Smart Pass server), set au ID.
- When [SDカードから戻す (Import from SD card)] is selected, select your previous au phone type
* Does not appear if you select 'auスマートパスから戻す (Import from au Smart Pass)' in step 5.

When "SDカードから戻す (Import from SD card)" is selected

- Mark data to import, then [戻す (Import)] → [完了 (Done)]
* It is a screen for selecting "スマートフォンのデータを戻す (Import smartphone data)".
* When a confirmation screen appears, follow the onscreen instructions.

Saving data from au Settings Menu

- From the Home screen, [Settings]
- [Settings] → [au Settings Menu]
- [Data Transfer]

When "auスマートパスから戻す (Import from au Smart Pass)" is selected

- Mark data to be imported, then [戻す (Import)] → Check the content → Follow the onscreen instructions → [完了 (Done)]

- [データを保存する (Save data)]
- Select a saving location
* When saving from [auスマートパスに預ける (Export to au Smart Pass)], set au ID.

When "SDカードに保存する (Save to SD card)" is selected

- Mark data to save → [保存する (Save)] → [完了 (Done)]

- To back up photos and contacts to au Smart Pass server automatically using "Data Storage" application, from the Home screen, [Settings] → [Settings] → [au Settings Menu] → [Backup Setting] → [定期的に自動で預ける (Export automatically on a regular basis)]

When "auスマートパスに預ける (Export to au Smart Pass)" is selected

- Mark data to export and [預ける (Export)] → Check the content → Follow the onscreen instructions → [完了 (Done)].

Sending contacts

You can send contacts to another phone.

- From the Home screen, [Contacts]
- [Contacts]
- Tap a contact to send
- [Share]
- Select how to send a contact → Follow the onscreen instructions
* Operation differs depending on the app you selected.

Sending several contacts

- Contact list screen → [Mark several] → Mark contacts to send
- [Select an app] → Select an app → Follow the onscreen instructions
* Operation differs depending on the app you selected.

Saving battery power

Use the quick setting panel or the quick setting tools to set Wi-Fi® function, Bluetooth® function, NFC function, STAMINA® mode etc. Switching the settings frequently can reduce the battery power consumption.

Opening the quick setting panel

- Slide down the status bar with two fingers
- Set each item
