November 2018, 1st Edition
Sold by: KDDI CORPORATION, OKINAWA
CELLULAR TELEPHONE COMPANY
Manufactured by: Sony Mobile Communications Inc.

Initial settings

When "ようこそ (Welcome)" appears after the product is powered on, follow the onscreen instructions to set functions and services.

STEP 1: Start of setting

- To change the language, tap "日本語 (Japanese)" to open the language list, select "English"→"United States".
- When you tap "VISUAL AIDS", the setting of accessibility functions can be made.
- Alternatively, after the initial setting is complete, from the Home screen, tap [⋮]→[設定 (Settings)]→[システム (System)]→[言語と入力 (Languages & input)]→[言語 (Languages)]→[言語を追加 (Add a language)] and select "English"→"United States", and then drag ≡ of "English (United States)" up to the top in the language list.
- You can also set the accessibility functions after the initial settings from the Home screen, [⋮]→[Settings]→[Accessibility].

STEP 2: Setting/Checking the important information

- ^{*1} Tap "Data charges" and "Diagnostics" to confirm the contents and the setting for providing Diagnostics.
- Alternatively, after the initial setting, set from the Home screen, [⋮]→[Settings]→[System]→[About phone]→[Usage info settings].

STEP 3: Setting up the network connection

- When you select "Use mobile network for setup", tap "CONTINUE" to proceed to "STEP 5".
- To make settings requiring network connection such as Google account etc. later, [SKIP]→[CONTINUE], then follow the onscreen instructions.

STEP 4: Setting Wi-Fi® connection

You can use a home wireless LAN (Wi-Fi®) or public wireless LAN to access the Internet services. Set it in a place where the signal of Wi-Fi® network can be received.

- Wi-Fi® network with 〇 is an open network.
- Wi-Fi® network with 〇 is a secured network. To connect it, enter a password (security key).

- ^{*1} When you select a Wi-Fi® open network, a password entry screen does not appear.
- To add a Wi-Fi® network manually, in step 1, tap "Add new network" and enter a network name (SSID) etc.→[SAVE]. Check the necessary information for the connection in advance.
- To make advanced setting of Wi-Fi®, after the initial setting, from the Home screen, [⋮]→[Settings]→[Network & internet]→[Wi-Fi]→[Wi-Fi preferences].

STEP 5: Copy apps & data

- To use the data of the other Android phone etc. successively, tap "NEXT" and follow the onscreen instruction.

STEP 6: Setting up a Google account

Set up a Google account to synchronize with Gmail, contacts of online service, calendar, etc. Setting for creating a new Google account is explained here.

- If you set up a Google account, you can use Google apps such as "Gmail" or "Google Play".
- Gmail address "(user name) @gmail.com" is automatically created from the user name set with a Google account.
- Although you can use the product without setting of a Google account, some apps using it cannot be used. When you activate the app, the setup screen for a Google account appears.

- ^{*1} If you have your Google account, enter the Gmail address or the phone number and tap "Next", and follow the onscreen instructions.
- ^{*2} If the selection items of "For myself"/"For my child" appear, select "For myself".
- ^{*3} When the confirmation screen appears, follow the onscreen instructions.

- ^{*4} Checking registration of username starts. If the username is unavailable, username suggestions appear.
- ^{*5} To change the method of adding a phone number, tap "More options" and follow the onscreen instruction.

STEP 7: Setting Google services

- Alternatively, after the initial settings, from the Home screen, [⋮]→[Settings]→[System]→[Advanced]→[Backup].

STEP 8: Setting the unlock method of using fingerprint

Set whether to use the fingerprint authentication function. Before registering a fingerprint, set the screen lock unlock method.

- ^{*1} To not register your fingerprint, tap "SKIP". To not set screen lock, tap "SKIP" again.
- ^{*2} To change screen lock unlock method, tap "Screen lock options"
- Alternatively, after the initial settings, operate from the Home screen, [⋮]→[Settings]→[Lock screen & security]→[Fingerprint Manager]/[Screen lock] to set.

STEP 9: Setting up Google Assistant

Set the permission for Google Assistant etc.

- ^{*1} To not set, tap "No Thanks".
- ^{*2} When you tap "No Thanks", proceed to STEP 10.
- If Google account is not set, the setting of Google Assistant is not displayed.

STEP 10: Setting Xperia services

Sign in for using Xperia services.

- ^{*1} To sign in with other account, [USE OTHER ID]→Select the account→Follow the onscreen instructions. If you do not sign in, [NOT NOW]→[SKIP].

STEP 11: Setting up additional apps

*1 Tap an item to open an app introduction.

STEP 12: Setting up more things

Set notification of lock screen.

*1 To end without setting, tap "NO THANKS".

●The screen for setting more things does not appear if you do not set the fingerprint authentication or screen lock unlock method.

STEP 13: Completion of setup

●Downloading of the applications selected in "STEP 11" starts when the product is connected to Wi-Fi®. When connected to the mobile network, downloading is in standby mode and will resume when you connect to Wi-Fi® after the au initial settings.

To download via mobile network, after the au initial settings, slide the status bar down→Open the notification of updates of apps, etc. →[USE MOBILE DATA].

au initial settings

Update preinstalled apps, setting au ID, download previously used apps, or make settings for using the product more convenient.

●By setting au ID, you can use various services provided by au such as auスマートパス (au Smart Pass) or "au Kantan Kessai", which allows you to purchase apps from Google Play.

●Alternatively, after the initial setting, from the Home screen, tap [⋮]→[Settings]→[au Settings]→[au Settings Menu]→[au Initial Setting].

*1 If you have already been registered au ID, step 3 and 4 do not appear. Proceed to step 5.

*2 PIN number is a four digit number chosen by the customer and noted on the application form.

*3 The confirmation screen for app permission appears several times. Operate in the same way.

*4 When "Select apps" appears in "Backed up", tap it to check the apps.

au-mail setting

●To use au-mail, subscription to LTE NET is required. If you did not subscribe it when you purchased the product, contact an au shop or Customer Service Center.

●Perform the initial settings in a place with good signal condition in Japan. If you perform in a place with bad signal condition or while moving, the settings may fail. The initial setting cannot be made via Wi-Fi® communication.

●Depending on time zone, the initial settings may take from 30 seconds to 3 minutes.

Wait for a while with "Eメールアドレスの設定中です。しばらくお待ちください。" (Setting email address. Wait for a while.) displayed on the screen.

Making the initial settings

* For change of model, the au-mail address which you have been used so far is displayed.

Checking your au-mail address

1 From the Home screen, [⋮]→[E-mail information]

Checking the operations of au-mail app

Changing your au-mail address

1 From the Home screen, [⋮]→[Change Address/Setting Filter]

2 [メールアドレスの変更へ (To change Mail address)]→Enter the security code→[送信 (Send)]

3 Confirm the content→[承諾する (I agree)]→Mark "ご希望のメールアドレスに変更する (Change to your desired mail address)" and enter a mail address of your choice→[送信 (Send)]→[OK]

* When the confirmation screen appears, follow the onscreen instructions.

* The operations or the screen displays are subject to change without notice.

Transferring data from au Settings Menu

Import or export data between the product and your previous au mobile phone by using microSD memory card or via the au server.

●To import data via the au server, save data to the au server from your previous au mobile phone in advance. To use the au server, set au ID (If there is no au Settings Menu on your previous au mobile phone, use "au Cloud" app).

●To import data by using a microSD memory card, save the data to a microSD memory card from your previous au mobile phone in advance (If there is no au Settings Menu on your previous au mobile phone, use "au backup" app).

●To back up photos and contacts to the au server automatically using "Data storage App", operate as follows.

From the Home screen, [⋮]→[Settings]→[au Settings]→[au Settings Menu]→[Backup Setting]→Mark items to back up automatically

Setting the lighting time of screen

The screen turns off automatically when the set time has elapsed while no operation is made. When you cannot operate readily because the screen turns off soon, change the lighting time.

Diagnosing on a regular basis

You are recommended to use クイック診断 (Quick diagnosis) for comfortable use of the product.
