I hereby give my consent for the applicant to sign a service contract with KDDI Corporation/Okinawa Cellular Telephone Company ("the company") in accordance with the terms and conditions set out in the au Telecommunication Service Agreement, including any subsequent applications to change their call plan, upgrade their handset, trade in their device, and handle other procedures relating to au telecommunication services *1 (excluding amendments to or cancellation of the Safety Filter or other filtering services, and applications for a change of phone number *2, *3, *4).
If the applicant is purchasing a mobile phone or other device on consumer credit, I consent to the applicant signing a contract with the company in accordance with the terms and conditions set out in the relevant Consumer Credit Agreement, and applying to pay off the balance of installments before the end of the installment payment period.
I accept that, if the contract holder designates a credit card or a bank account in my name (in the name of the parent specified in this Parental Consent Form only) as their method of payment for au telecommunication service charges *5, payment for au telecommunication service charges used by the contract holder will be made using the designated credit card or bank account. Notes											

1. If a minor will be using services connected to the internet, we would recommend signing up to a filtering service.

- When using the Internet, young people may come into contact with illegal or harmful materials that could be detrimental to their personal development. The Internet also exposes users to crimes and other risks including the following. We therefore recommend signing up for a filtering service.
You can still sign up even if the contract holder is an adult, providing that the user is a minor.
(1) Increasing numbers of young people have gotten in trouble through communication with strangers via social media sites, etc.
※About 88.7% of minors who became involved in criminal activity through community sites were not using any filtering services (according to the National Police Agency's announcement in October 2016).
(2) They are at risk not only of falling victim but also of committing a crime themselves before they know it.
(Theft of personal information through communication with strangers, inappropriate posts leading to criminal activity, peer trouble caused through posting of videos or images, and so on)

If the contract holder is different from the user of the au mobile phone, the contract holder can register using their own details.

- If the contract holder or the user is a minor, a Filtering Service Application or Application for Non-Use of Filtering Service must be submitted.
If the applicant brings in a Filtering Service Application unaccompanied by a parent/guardian, confirmation must be obtained from the parent/guardian by telephone.

2. Disclaimers Concerning Applications for Consumer Credit Agreements or Individual Item Installment Sales Agreements

- According to the provisions in the Installment Sales Act (excluding individual item installment sales agreements), personal credit information, including the contract holder's payment status, is queried and registered at a credit information agency designated by the Ministry of Economy, Trade and Industry at the time of applying for a consumer credit agreement or individual item installment sales agreement, and after entering the agreement. Other members of the designated credit information agency may also use the information about the registered contract holder.
- Even if the contract holder is a minor and the parent or guardian falls into arrears with respect to payments, the payment arrears will be treated as information about the under-age contract holder.
Please note that applications for other credit lines or loans may be denied since a record of any payment arrears is held at the designated consumer credit agency for a period of 5 years after full payment.
- If signing a Consumer Credit Agreement or a Individual Item Installment Sales Agreement when applying to purchase a mobile phone or other device*, the parent will be required to come into the store on each occasion (for the purpose of parental consent).
※Applications to purchase a mobile phone include new devices, upgrades, additional devices and loss replacement services.

3. Other precautions

- To make monthly payments using the parent/guardian's credit card or bank account, the applicant must be accompanied by the relevant parent/guardian at the time of application.
- If any of the information entered on this form (name, address, contact details, etc.) is found to be inaccurate, the contract may be terminated.
- With regard to the use of mobile phones by children, please discuss the purpose, method, time, charges, etc. extensively with the children and establish rules. Please also ensure that you review the rules regularly.
