Cautions on using the product

Be sure to read this manual before use

When using the product

Before you start using the product, make sure to read the "Safety Precautions" to ensure correct use.

Before you assume that the product is malfunctioning, refer to "故障とお考えになる前に" (Check here first)" in "取扱説明書 詳細版 (Full Instruction Manual) (Japanese)".

- Communication is not possible even inside of the service area in places where the signal does not reach (e.g. tunnels and basements). Also, communication is sometimes not possible in poor signal reception areas. Communication is sometimes interrupted if you move into poor signal reception area during communication.
- Since the product uses radio waves, the possibility of communication intercepts by third parties cannot be eliminated. (Though 5G/LTE/WiMAX 2+/GSM/UMTS system has highly secure confidential communication features.)
- For connecting to the emergency call acceptance organization, VoLTE (LTE network) is used. 3G (Line exchange network) connection is not available.
- Since the product is a radio station under the Radio Law, you may be asked to temporarily submit the product for inspection in accordance with the Radio Law. The IMEI information of your mobile phone is automatically sent to your carrier for maintenance and monitoring operational status of your mobile phone.
- Before you start using the product overseas, check the relevant laws and regulations of the country/region you visit.
- The Company is not liable for any damages arising from earthquakes, lightning, storms, floods or other natural disasters, as well as fires, actions by third parties, other accidents, intentional, mistaken, or incorrect use by the customer, or use under other unusual conditions outside the responsibility of the Company.
- The Company is not liable for any incidental damages (change/disappearance of described content, loss of business income, disruption of business, etc.) arising from use of the product or inability to use the product.
- The Company is not liable for any damages arising from failure to observe the described content of the "Instruction Manual".
- The Company is not liable for any damages arising, for example, from malfunction caused by combination with connected devices or software not related to the Company.
- Captured image data or downloaded data may sometimes be altered or lost due to faults, repair or other handling of the product. The Company is not liable for any damage or lost income resulting from recovery of these data.

• In this manual, "arrows We" is usually referred to as "the product" or "main unit".

• In this manual, "Quick Start Guide", "Cautions on using the product" (this manual) and "取扱説明書 詳細版 (Full instruction manual) (Japanese) are collectively referred to as "Instruction Manual".

• Descriptions in this manual are based on Android™ 11.

• In this manual, "microSD™ memory card (commercially available)", "microSDHC™ memory card (commercially available)" and "microSDXC™ memory card (commercially available)" are abbreviated as "microSD memory card".

• Company names and product names referred to in this manual are trademarks or registered trademarks of respective companies. The TM and ® marks may be omitted in this manual.

-  **Follow the instructions of a gas station or other such location before using the product there.**
Do not charge the product at a gas station, etc.
Take care not to drop the product at a gas station, etc.; in particular, do not use the product while filling.
Ignition of flammable gas might cause explosion, fire, etc.
-  **If you notice anything unusual about the equipment such as an unusual odor, abnormal noise, smoke generation, overheating, discoloration or deformation during operation, charging or storage, perform the following measures carefully.**
 - Remove the power plug from an outlet
 - Turn off the power of the productFailure to do so might cause fire, burns, injury, electric shock, etc.
-  **Caution** **Be sure to read the following cautions before use.**
 - Do not use damaged product or peripheral devices.**
Doing so might cause fire, burns, injury, etc.
 - Do not place the product on an unstable or inclined platform. Be careful especially when vibrator is set.**
The product might fall and cause injury etc.
 - Do not use or keep in a place that is very humid, dusty, or subject to high temperature.**
Doing so might cause fire, burns, electric shock, etc.
For waterproofness/dustproofness, refer to "Notes on waterproof, dustproof, and shock resistance properties" (▶P.26).
 - If children use the product, parents or guardians should give them proper instructions and do not allow them to use the product in the wrong way.**
Use of the product in the wrong way might cause accidental ingestion, injury, electric shock, etc.
-  **Caution** **Be sure to read the following cautions before use.**
 - Do not use damaged product or peripheral devices.**
Doing so might cause fire, burns, injury, etc.
 - Do not place the product on an unstable or inclined platform. Be careful especially when vibrator is set.**
The product might fall and cause injury etc.
 - Do not use or keep in a place that is very humid, dusty, or subject to high temperature.**
Doing so might cause fire, burns, electric shock, etc.
For waterproofness/dustproofness, refer to "Notes on waterproof, dustproof, and shock resistance properties" (▶P.26).
 - If children use the product, parents or guardians should give them proper instructions and do not allow them to use the product in the wrong way.**
Use of the product in the wrong way might cause accidental ingestion, injury, electric shock, etc.
-  **Caution** **Be sure to read the following cautions before use.**
 - Firmly insert the specified charging equipment (sold separately) into an outlet.**
Insecure inserting might cause fire, burns, electric shock, etc.
 - When you disconnect a power plug of the specified charging equipment (sold separately) from an outlet, do not apply excessive force to it such as pulling the cable. Instead, hold the adapter main unit to disconnect.**
Pulling the cable of the specified charging equipment (sold separately) might damage the cable causing fire, burns, electric shock, etc.
 - When plugging/unplugging the specified charging equipment (sold separately) into/from the product, plug/unplug it straight toward the product without applying excessive force such as pulling the cable.**
Incorrect plugging/unplugging might cause fire, burns, injury, electric shock, etc.
 - If the charging terminal is deformed such as being bent, stop using immediately. Do not use it with the deformation restored.**
Doing so might cause fire, burns, injury, etc. due to short-circuit of the charging terminal.
 - Always remove the power plug from an outlet when not using it.**
Keeping it plugged in might cause fire, burns, electric shock, etc.
 - Immediately remove the power plug from an outlet if liquids such as water (drinking water, sweat, seawater, urine of pet animals, etc.) get adhered.**
Failure to do so might cause fire, burns, electric shock, etc. due to short-circuit by adhered object etc.
 - Before cleaning, remove the power plug from an outlet.**
Failure to do so might cause fire, burns, electric shock, etc.

-  **Caution** **Be sure to read the following cautions before use.**
 - Do not touch the specified charging equipment (sold separately) continuously when it is connected to an outlet.**
Doing so might cause a burn etc.
 - SIM card**
 -  **Caution** **Be sure to read the following cautions before use.**
 - Be careful of the cut surface not to hurt your fingers etc. when handling SIM card.**
The cut surface may be sharp, and it might cause injury.
 - Using near medical equipment or in healthcare facilities**
 -  **Warning** **Be sure to read the following warnings before use.**
 - If you wear electronic medical equipment such as an implantable cardiac pacemaker or an implantable cardioverter defibrillator, carry or use the product 15 cm or more away from the implant at all times.**
The radio waves from the product might have harmful effects on the operation of the electronic medical equipment.
 - If you need to use electronic medical equipment other than implantable cardiac pacemakers or implantable cardioverter defibrillators outside medical facilities such as treating at home, consult the relevant medical electronic equipment manufacturer for effects on the equipment by radio waves.**
The radio waves from the product might have harmful effects on the operation of the electronic medical equipment.
-  **Warning** **Be sure to read the following warnings before use.**
 - Reproduction of the content of "Instruction Manual" in part or in whole is prohibited.**
 - The content of "Instruction Manual" is subject to change without notice.
 - Some functions may be unavailable due to change of specification of the OS or change/termination of services.
 - Every effort has been made in the preparation of "Instruction Manual". Should you notice any unclear points, omissions, etc., feel free to contact us.
-  **Warning** **Be sure to read the following warnings before use.**
 - Do not turn on the flash/light with the lighting luminescence part close to the other's eyes. Keep enough distance away especially from babies.**
Doing so might cause blurred vision etc. Also an accident such as injury might occur if he or she is dazzled or frightened.
 - Do not turn on or flash the flash/light toward a driver of a car etc.**
Doing so might disturb driving and cause an accident etc.
 - Do not look at a repeatedly-blinking screen for a long time.**
Doing so might cause cramp, loss of consciousness, etc.
 - Do not allow liquids such as water (drinking water, sweat, seawater, urine of pet animals, etc.), metal parts, or flammable objects to enter to the microSD memory card/SIM card slot of the product.**
 - Do not set a microSD memory card or SIM card in wrong insertion, or insert it in wrong orientation.**
Doing so might cause fire, burns, injury, electric shock, etc.
 - Do not expose the camera lens to direct sunlight for a long time.**
Doing so might cause fire, burns, injury, etc. due to light-collecting mechanism of lens.
 - Do not sound the buzzer close to the ear.**
Doing so may affect your ears such as difficulty in hearing.
 - Power off the product or put it in Airplane mode before boarding an airplane.**
Use of mobile phones on board is restricted. Follow the instructions of each airline.
The radio waves from the product might adversely affect on-board electronic equipment.
Prohibited acts related to mobile phone usage on an airplane might be punished by law.

Safety Precautions (Observe Strictly)

- It is recommended you keep a copy of important data on your PC/hard disk etc. Whatever the cause of the defect or malfunction may be, the Company assumes no responsibility for alteration or loss of saved data.
- Data saved in the product, such as images/videos, might be altered or lost by an accident, fault, repair or mishandling. Be sure to keep a copy of important contents. Note that the Company assumes no responsibility for any damages or lost profits resulting from altered or lost contents.
- Note that contents data (both charged or free content) saved to the product cannot be returned to the customer when the product is replaced for repair of a fault, for example.
- The product uses liquid crystal for its display. The display response speed may become slow when the ambient temperature is low, which is due to the characteristics of liquid crystal and is not a malfunction. The display response speed will return to normal at room temperature.
- Although the display used for the product is made using high-precision technology, some pixels (dots) might be lit or out at all times. This is not a malfunction.
- You are recommended to store copies of individual data such as photos you took, videos and music on your PC by sending each file as mail attachment etc. Note, however, that you may not be able to make copies of any copyrighted data even by the above-mentioned means.
- Do not discard the product together with regular trash. Please cooperate in the collection of the product (including optional accessories) when it is no longer needed to protect the environment and effectively use resources.
- *The Company¹ as appears in the manual refers to your carrier and the manufacturer (FCNT LIMITED).

 Danger	This symbol indicates that "death or serious injury" ¹ may directly and immediately result from improper use [*] .
 Warning	This symbol indicates that "death or serious injury" ¹ may result from improper use [*] .
 Caution	This symbol indicates that "minor injury" ² and/or property damage ³ may result from improper use [*] .

-  **1** Serious injury: This refers to loss of sight, injury, burns (high- and low temperature), electric shock, broken bones, injuries with residual aftereffects from poisoning etc., and injuries requiring hospital admission for treatment or long-term hospital attendance as an outpatient.
-  **2** Minor injury: This refers to injuries, burns (high- and low-temperature), electric shock, etc. that do not require hospital admission for treatment or long-term hospital attendance as an outpatient.
-  **3** Property damage: This refers to extended damage to buildings, furniture, livestock, pets, etc.

-  **Warning** **Be sure to read the following warnings before use.**
 - Follow the instructions of each medical facility for the use of mobile phones on their premises.**
Power off the product in a place where the use is prohibited.
The radio waves from the product might affect electronic equipment and electronic medical equipment.
 - Always keep the product away from your ear when you call handsfree, while sounding the ringtone loudly, or during stand-by. Also, when you play game, play back videos, music, etc. connecting the earphone/microphone, etc. to the product, adjust the volume adequately.**
Loud sound is emitted from the product when calling with hands-free set. Even in standby mode, a ringtone or an alarm sound may sound suddenly.
Listening to loud sound for long hours continuously may cause a disability of ears such as deafness.
Moreover, too loud sound makes you barely hear the surrounding sounds and may cause an accident.
 - If you have a weak heart, set the vibrator or ringtone volume carefully.**
Sudden vibration or ringtone sounding when for incoming call astonishes you and it may affect your heart.
 - If you are wearing any electronic medical equipment, check with the relevant medical electronic equipment manufacturer or vendor whether the operation might be affected by radio waves.**
The radio waves from the product might affect electronic medical equipment.
 - Power off the product near electronic devices or equipment operating on high precision control or weak signals.**
The radio waves from the product might interfere with the operation of electronic devices or equipment.
* The following are some electronic devices or equipment that you should be careful of:
Hearing aids, implantable cardiac pacemaker, implantable cardioverter defibrillator, other electronic medical equipment, and other automatically controlled devices or equipment. If you use an implantable cardiac pacemaker, implantable cardioverter defibrillator, or other electronic medical equipment, check with the medical electronic equipment manufacturer or vendor whether the operation can be affected by radio waves.
-  **Warning** **Be sure to read the following warnings before use.**
 - Do not turn on the flash/light with the lighting luminescence part close to the other's eyes. Keep enough distance away especially from babies.**
Doing so might cause blurred vision etc. Also an accident such as injury might occur if he or she is dazzled or frightened.
 - Do not turn on or flash the flash/light toward a driver of a car etc.**
Doing so might disturb driving and cause an accident etc.
 - Do not look at a repeatedly-blinking screen for a long time.**
Doing so might cause cramp, loss of consciousness, etc.
 - Do not allow liquids such as water (drinking water, sweat, seawater, urine of pet animals, etc.), metal parts, or flammable objects to enter to the microSD memory card/SIM card slot of the product.**
 - Do not set a microSD memory card or SIM card in wrong insertion, or insert it in wrong orientation.**
Doing so might cause fire, burns, injury, electric shock, etc.
 - Do not expose the camera lens to direct sunlight for a long time.**
Doing so might cause fire, burns, injury, etc. due to light-collecting mechanism of lens.
 - Do not sound the buzzer close to the ear.**
Doing so may affect your ears such as difficulty in hearing.
 - Power off the product or put it in Airplane mode before boarding an airplane.**
Use of mobile phones on board is restricted. Follow the instructions of each airline.
The radio waves from the product might adversely affect on-board electronic equipment.
Prohibited acts related to mobile phone usage on an airplane might be punished by law.
-  **Warning** **Be sure to read the following warnings before use.**
 - Follow the instructions of each medical facility for the use of mobile phones on their premises.**
Power off the product in a place where the use is prohibited.
The radio waves from the product might affect electronic equipment and electronic medical equipment.
 - Always keep the product away from your ear when you call handsfree, while sounding the ringtone loudly, or during stand-by. Also, when you play game, play back videos, music, etc. connecting the earphone/microphone, etc. to the product, adjust the volume adequately.**

Doing so might cause fire, burns, injury, etc. due to light-collecting mechanism of lens.
 - Do not sound the buzzer close to the ear.**
Doing so may affect your ears such as difficulty in hearing.
 - Power off the product or put it in Airplane mode before boarding an airplane.**
Use of mobile phones on board is restricted. Follow the instructions of each airline.
The radio waves from the product might adversely affect on-board electronic equipment.
Prohibited acts related to mobile phone usage on an airplane might be punished by law.

-  **Warning** **Be sure to read the following warnings before use.**
 - If there is any chance that the distance between the product and a person closest to you might get shorter than 15 cm such as when you cannot freely move around, set the product not to emit radio wave in advance (Airplane mode, power off, etc.).**
A person in close proximity to you might wear electronic medical equipment such as an implantable cardiac pacemaker or an implantable cardioverter defibrillator. The radio waves from the product might have harmful effects on the operation of the electronic medical equipment.
 - Follow the instructions given by the respective medical facility regarding use of the product on their premises.**
The radio waves from the product might have harmful effects on the operation of the electronic medical equipment.
-  **Warning** **Be sure to read the following warnings before use.**
 - Do not touch the specified charging equipment (sold separately) continuously when it is connected to an outlet.**
Doing so might cause a burn etc.
 - SIM card**
 -  **Caution** **Be sure to read the following cautions before use.**
 - Be careful of the cut surface not to hurt your fingers etc. when handling SIM card.**
The cut surface may be sharp, and it might cause injury.
 - Using near medical equipment or in healthcare facilities**
 -  **Warning** **Be sure to read the following warnings before use.**
 - If you wear electronic medical equipment such as an implantable cardiac pacemaker or an implantable cardioverter defibrillator, carry or use the product 15 cm or more away from the implant at all times.**
The radio waves from the product might have harmful effects on the operation of the electronic medical equipment.
 - If you need to use electronic medical equipment other than implantable cardiac pacemakers or implantable cardioverter defibrillators outside medical facilities such as treating at home, consult the relevant medical electronic equipment manufacturer for effects on the equipment by radio waves.**
The radio waves from the product might have harmful effects on the operation of the electronic medical equipment.

Doing so might cause fire, burns, injury, etc. due to light-collecting mechanism of lens.
 - Do not sound the buzzer close to the ear.**
Doing so may affect your ears such as difficulty in hearing.
 - Power off the product or put it in Airplane mode before boarding an airplane.**
Use of mobile phones on board is restricted. Follow the instructions of each airline.
The radio waves from the product might adversely affect on-board electronic equipment.
Prohibited acts related to mobile phone usage on an airplane might be punished by law.

 No duty	Indicates an action that is not allowed.	 No wet hands	Indicates that handling with wet hands is not allowed.
 No disassembly	Indicates that disassembly is not allowed.	 No compulsory actions	Indicates compulsory actions in accordance with instructions.
 No splash	Indicates that use in a place where the product is likely to get wet or allowing the product to get wet is not allowed.	 No power plug	Indicates that the power plug must be disconnected from an outlet.

-  **Warning** **Be sure to read the following hazards before use.**
 - Do not use, store or leave the equipment in a location where it is subject to high temperature or accumulation of heat (e.g. by the fire, near a heater, under a kotatsu or bedding, in direct sunlight, in a car in the hot sun).**
Doing so might cause fire, burns, injury, electric shock, etc.
 - Do not put the equipment in cooking appliances such as microwave ovens, IH cooking heaters, or high pressure containers such as pressure cookers. Do not place the equipment near such cooking appliances.**
Doing so might cause fire, burns, injury, electric shock, etc.
 - Do not splash sand, soil or mud, or do not directly place the equipment on it. Also, do not touch the equipment with hands with sand etc. adhered.**
Doing so might cause fire, burns, injury, electric shock, etc.
For waterproofness/dustproofness, refer to "Notes on waterproof, dustproof, and shock resistance properties" (▶P.26).
-  **Warning** **Be sure to read the following hazards before use.**
 - Be careful about broken parts or exposed internal part of the product when the display or the camera lens is broken.**
Touching damaged or exposed part might cause burns, injury, electric shock, etc.
 - If the internal battery leaks or gives off a strange smell, immediately stop using and remove it from the vicinity of open flames.**
The leaking liquid might ignite, catch fire, explode, etc.
 - Be careful not to allow a pet etc. to bite the product.**
Doing so might cause fire, burns, injury, etc. because of ignition, burst, heat or leaking of the internal battery.
-  **Warning** **Be sure to read the following cautions before use.**
 - When using the motion sensor, check the safety around you, hold the product firmly, and do not shake it unnecessarily.**
Failure to do so might cause an accident such as injury.
 - If the display is damaged and when the internal substance etc. leaks out, do not allow it to contact your skin such as face and hands, clothes, etc.**
Doing so might cause injury etc. on your eyes or skin.
If the internal substance gets into your eyes, mouth, etc. or contacts your skin or clothes, immediately rinse with clean water.
In the case of getting into your eyes, mouth, etc., immediately consult a doctor after rinsing.
 - Do not discard the product together with other garbage.**
Doing so might cause fire, burns, injury, etc. Also, it might cause environmental destruction. When the product is no longer used, dispose of it according to a recycling program of your local municipality.

-  **Warning** **Be sure to read the following cautions before use.**
 - Be careful about broken parts or exposed internal part of the product when the display or the camera lens is broken.**
Touching damaged or exposed part might cause burns, injury, electric shock, etc.
 - If the internal battery leaks or gives off a strange smell, immediately stop using and remove it from the vicinity of open flames.**
The leaking liquid might ignite, catch fire, explode, etc.
 - Be careful not to allow a pet etc. to bite the product.**
Doing so might cause fire, burns, injury, etc. because of ignition, burst, heat or leaking of the internal battery.
-  **Warning** **Be sure to read the following cautions before use.**
 - When using the motion sensor, check the safety around you, hold the product firmly, and do not shake it unnecessarily.**
Failure to do so might cause an accident such as injury.
 - If the display is damaged and when the internal substance etc. leaks out, do not allow it to contact your skin such as face and hands, clothes, etc.**
Doing so might cause injury etc. on your eyes or skin.
If the internal substance gets into your eyes, mouth, etc. or contacts your skin or clothes, immediately rinse with clean water.
In the case of getting into your eyes, mouth, etc., immediately consult a doctor after rinsing.
 - Do not discard the product together with other garbage.**
Doing so might cause fire, burns, injury, etc. Also, it might cause environmental destruction. When the product is no longer used, dispose of it according to a recycling program of your local municipality.

If the internal substance gets into your eyes, mouth

● Do not connect the outlet or wiring device when charging the product, for example, by starburst connection etc.

Main unit

● Since the battery is built into the product, you cannot replace it yourself. For replacing the battery, contact お問い合わせ先 (For inquiries) on 取扱説明書 詳細版 (Full Instruction Manual) (Japanese).

● Do not forcefully press, pry or intentionally subject the display to strong impact. Doing so might cause scratching or damage.

● Do not forcefully press the keys or display surface with your fingernails or hard objects. Doing so might cause scratching or damage of the keys or display.

● Do not use a remodeled product. Use of a modified device violates the Radio Law and Telecommunications Business Act. The product is compliant with rules on the technical standard conformance of specified wireless equipment based on the Radio Law/ Telecommunications Business Act, and as a proof of it, the Technical Compliance Mark ㊞ can be checked with the product. **Checking procedure: In the Home screen, slide the screen up -- [Settings] -- [About phone] -- [Regulatory label]** If modifications of the internal components of the product are made, the certification of conformity with the technical standard conformance etc. becomes invalid. Do not use the product with the certification invalid, as it is a violation of the Radio Law and Telecommunications Business Act.

● Take care not to place magnetized items such as cash cards, credit cards, speakers and TV sets near the product, as it might cause a malfunction. Putting a strong magnetism close to the product might cause a false operation.

● Do not bring cash magnetized cards such as cash cards, credit cards and prepaid cards closer to the product. It might cause loss of the recorded data.

● When you put the product in your pocket or bag, take care that the display does not come in contact with metal objects or other hard objects, as it might cause a scratch or damage.

● When suddenly brought into a warm place from a cold place, or when used in a humid location or in a place where temperature suddenly changes (e.g. near the air discharge port of an air conditioner), water droplets (i.e. condensation) may be formed inside of the product. Note that when used under such conditions, the humidity might cause corrosion or a malfunction.

● While writing or reading data to or from a microSD memory card, do not subject the product to vibration or impact, or turn off the power. Doing so might cause loss of data or a malfunction.

● Do not cover the light/proximity sensor with your finger or put a sticker on it. Doing so might hinder the light/proximity sensor from detecting the ambient brightness and functioning correctly.

● Do not put a sticker, etc. on the light/proximity sensor. Doing so might cause a malfunction on the sensor and make the display always turned off while receiving a call or during a call.

● Usually use the product with the slot cap of microSD memory card/SIM card slot firmly closed. If the slot cap is open, dirt or water might get inside and cause a malfunction.

● Do not allow liquids, metal and other foreign objects to get inside the USB Type-C port, stereo earphones port, microSD memory card/SIM card slot, earpiece, mic/recorder mic, speaker, second-mic, etc. Doing so might cause a malfunction.

● Do not give strong impact on the product such as dropping, throwing, dropping, throwing. Doing so might cause a malfunction.

● Do not put the product directly on sand at a beach etc. Sand or other small particles might get inside the earpiece, mic/recorder mic, speaker, or second-mic causing the volume to drop. If sand gets inside the product, it might cause a malfunction.

● Depending on your operations or usage environment, the product may become warm. In this case, charging may stop or the screen brightness may be adjusted for safety. In addition, if the product is left warm, a warning display may appear and the product may turn off.

● When using the camera, a warning display appears and the camera terminates automatically if you keep using the camera with the product left unused.

Display (Touch Panel)

● The touch panel is designed to be lightly touched by fingers. Do not apply strong pressure with your fingers or sharp-pointed objects (such as fingernails, ballpoint pens and pins) to the touch panel. In the following cases, the touch panel might not respond. Also, it may cause malfunction.

- Operation with gloves
- Operation with fingernails
- Operation with foreign object on the touch panel
- Operation with protective sheet or seal on the touch panel
- Operates when the display is wet with water droplet or fogged
- Operation with wet or sweaty fingers
- Operation under water

● Putting stickers or sheets (e.g. commercially available protective films, peep prevention sheets) on the display might hinder correct operation of the touch panel.

● When carrying the product in your pocket or bag, take care not to put the touch panel close to metals or other conductive materials, as it might cause false operation of the touch panel.

Internal battery

Internal battery of the product is a lithium-ion battery The internal battery is not fully charged at the time of purchase. Charge the internal battery before using the product. Charge the internal battery if you have not used the product for a long time.

● Use in very hot or cold environments, for example, when left in an automobile with the windows closed in summer, will cause the internal battery capacity to drop and shorten the available usage time. This will also shorten the internal battery's service life. Try to use the product as far as possible at room temperature.

● Do not touch the specified charging equipment (sold separately) with wet hands. Doing so might cause electric shock. ● Do not splash water over the specified charging equipment (sold separately) when using them. Do not use them near water such as in a bathroom, shower room, kitchen or washroom. Doing so might cause fire, burns, electric shock, or malfunction. Do not bring them into a bathroom etc. even if you do not charge the product with them. Doing so might cause fire, burns, electric shock, or malfunction.

● The rubber seal on the inner edges of the slot cap of microSD memory card/SIM card slot is important to maintain waterproof/dustproof property. Do not damage or remove the rubber seals. ● When closing the slot cap of microSD memory card/SIM card slot, take care not to get the rubber seal caught. Forcibly closing the cover with the rubber seals caught might damage them resulting in loss of waterproof/dustproof property. Just a small particle (a hair etc.) between contact surfaces can cause water intrusion or dust penetration. ● If any liquid other than plain water (e.g. alcohol) is adhered to the rubber seals, it might cause deterioration in durability. ● Do not insert sharp objects into grooves around the slot cap of microSD memory card/SIM card slot. Doing so might damage or deform the product, damage the rubber seals, etc. causing water intrusion or dust penetration.

● It is recommended to replace the parts for maintaining waterproof/dustproof property once every two years regardless of whether any abnormality is present. For information on part replacement, contact お問い合わせ先 (For inquiries) on 取扱説明書 詳細版 (Full Instruction Manual) (Japanese).

● **Replacing parts** ● It is recommended to replace the parts for maintaining waterproof/dustproof property once every two years regardless of whether any abnormality is present. For information on part replacement, contact お問い合わせ先 (For inquiries) on 取扱説明書 詳細版 (Full Instruction Manual) (Japanese).

● **Heat resistance** ● Do not sink the product into boiling hot water or do not splash with boiling hot water to the product. Also, do not use the product in saunas or do not expose the product to fire winds from hair dryer etc. the product is not resistant to high temperatures.

● **Shock** ● The product shock resistance assumes usage in daily situations, including such as an artificial nail. Doing so may scratch the main unit or the product fall forcefully may break the product.

Precautions on charging

The optional accessories are not waterproof/dustproof. Check the following before and after charging. ● Never charge the battery if the product is wet. Doing so might cause gas, burns, injury, electric shock, etc. ● Check that the product is not wet. If you are charging the battery just after the product gets wet, drain water well and wipe the remaining water off with a clean dry cloth.

● **Wireless LAN (Wi-Fi)** has the advantage that it can be freely connected anywhere within the radio wave range, as it uses radio waves for exchanging information. At the same time, there is a risk that a malicious third party may obtain unauthorized access if security settings have not been configured. You are recommended to configure security settings before using wireless LAN (Wi-Fi) at your decision and responsibility.

● The Company assumes no responsibility for leakage of data or information that occur during Bluetooth®/wireless LAN (Wi-Fi) communication. ● Since Bluetooth® and wireless LAN (Wi-Fi) functions use the same frequency band, using the both functions at the same may cause radio wave interference resulting in decreased communication speed or disconnection from the network. If connection fails, stop using either of the Bluetooth® and wireless LAN (Wi-Fi) functions.

Bluetooth® and wireless LAN (Wi-Fi) functions of the product use frequencies in the 2.4 GHz band. ● **Bluetooth® function:**

① ㊟: Radio equipment that uses the 2400 MHz band. ② ㊟: The modulation is the FH-SS method or other method (method other than DS-SS method/DS-FH method/FH-OFDM composite method/OFDM method).

③ ㊟: The expected interference distance is 10m or shorter. ④ ㊟: All bandwidths between 2400 MHz and 2483.5 MHz are used, and the bandwidth used by mobile object identification devices cannot be avoided.

● **Wireless LAN (Wi-Fi) function:**

① ㊟: Radio equipment that uses the 2400 MHz band. ② ㊟: DS : The modulation is the DS-SS method. ③ ㊟: OF : The modulation is the OFDM method. ④ ㊟: The expected interference distance is 40m or shorter.

● **Wireless LAN (Wi-Fi) function:**

① ㊟: Radio equipment that uses the 2400 MHz band. ② ㊟: DS : The modulation is the DS-SS method. ③ ㊟: OF : The modulation is the OFDM method. ④ ㊟: The expected interference distance is 40m or shorter.

● **Provisions for free-of-charge repair**

1. Please notify us of the production number (IMEI number) for repair request. The production number (IMEI number) can be checked on the product main unit, sticker on the outer packaging box etc. 2. During the warranty period, we will repair the product free of charge for the malfunction under the condition that it is used correctly in line with the directions given in the instruction manual. 3. Even if the warranty period has not expired, a fee will be charged for repair under the following circumstances. (or, repair may not be possible). ① The product has not been used correctly in line with the directions given in the instruction manual. ② The malfunction or damage is due to unauthorized repair or modification of the product. ③ The product has been repaired other than at our specified repair offices. ④ The malfunction or damage is due to negligence in use, or handling, or due to an accident. There are signs of the product having been dropped, wet, exposed to humidity, etc. ⑤ The malfunction or damage is due to natural disasters (earthquakes, storm or flood damage, etc.), fire, salt damage, abnormal voltage, etc.

4. Repair may not be possible depending on the degree of damage. 5. The Company shall have no liability for any damage or loss resulting from the malfunction of the product. 6. The Company shall not bear any responsibility for accidents resulting from use of the product having been connected to unspecified devices. 7. Do not accept requests for service calls to the owner's home, place of business, etc. 8. This warranty is valid only in Japan. 9. This warranty guarantees repair free of charge during the period and under the conditions specified on this warranty card. Thus this warranty does not limit the legal rights of the owner with respect to the issuer of this warranty card (the guarantor) or any other business person or enterprise.

● **SIM card** The SIM card is lent to you by your carrier. In case of loss or damage, the card will be replaced at your expense. When a malfunction is suspected, or in case of theft or loss, contact お問い合わせ先 (For inquiries) on 取扱説明書 詳細版 (Full Instruction Manual) (Japanese).

● Do not damage the SIM card by using the product in a hot place, dropping into fire, contacting to the metal parts with foreign object, giving an impact, bending, applying load, wetting, etc. Doing so might cause loss of data or a malfunction.

● **Camera** ● When photographing important occasions etc., take a trial shot and check the shot image to make sure it is correctly shot. ● Do not shoot in a place where shooting is prohibited.

● **Copyrights and rights of portrait**

● You are not allowed to copy, distribute, publish, modify or edit the data you shot, recorded or downloaded using the product without consent of the copyright holder, except for personal use such as copying or quoting where provided for under the copyright law. In addition, do not use or modify portraits or names of other individuals without the consent, as it might infringe on rights of portrait. Note that shooting and recording might be restricted at some live performances, shows and exhibitions even for personal use.

● Be careful about the copyright and portrait right when posting photos you shot etc. on Internet homepage.

Backup content on the product

● Please back up important content recorded to the product or downloaded to the product from an outside source. Content recorded to memory on the product sometimes disappears or is altered by unexpected factors, such as static electricity or a fault, repair, mishandling, etc.

SIM card

● Do not forcibly remove or insert SIM card. Be careful not to exert excessive force when inserting the card into your phone. ● You are responsible for any damage caused by inserting your SIM card into other IC card reader/writer etc. ● Do not put stickers etc. on the SIM card. ● Do not insert SIM card with conversion adapter attached. Doing so might cause a malfunction.

● Do not touch the specified charging equipment (sold separately) with wet hands. Doing so might cause electric shock. ● Do not splash water over the specified charging equipment (sold separately) when using them. Do not use them near water such as in a bathroom, shower room, kitchen or washroom. Doing so might cause fire, burns, electric shock, or malfunction. Do not bring them into a bathroom etc. even if you do not charge the product with them. Doing so might cause fire, burns, electric shock, or malfunction.

● Do not splash water over the specified charging equipment (sold separately) when using them. Do not use them near water such as in a bathroom, shower room, kitchen or washroom. Doing so might cause fire, burns, electric shock, or malfunction. Do not bring them into a bathroom etc. even if you do not charge the product with them. Doing so might cause fire, burns, electric shock, or malfunction.

How to wash

For washing the product, confirm the precautions and perform in the following procedure.

- Remove the commercially available accessories (product cover, case, etc.). For handling commercially available accessories, refer to the notes of each product.
- Use a foam type hand soap for home use which is manufactured by domestic manufacturer, or liquid type detergent for the tableware which is manufactured by domestic manufacturer. Do not use soap (bar soap, soap powder, etc.) other than those mentioned above.
- Use the agents in which 0.05w/v% or less chlorine or chlorinated additive is contained.
- For using detergent for the tableware, thoroughly read the notes on use of it and then follow the amount of use.
- Do not use undiluted solution of detergent for the tableware to directly contact the product. If the undiluted solution is put on the product, immediately rinse with water.
- When washing the product, put off your watch, ring, or other decoration such as artificial nail. Doing so may scratch the main unit or the product. When washing the product, turn off the power in advance.
- Make sure to firmly close the slot cap of microSD memory card/SIM card slot.

① After frothing up foam type hand soap or detergent for the tableware in your hands, put the product on your palm, and then rub the front surface and the back surface with the foam. ● Hold the slot cap of microSD memory card/SIM card slot so as not to open while washing.

② Completely rinse off the foam on the front surface, back surface, buttons, etc. of the product. ● Wash in a position where the distance is approximately 10 cm from the tap or shower head, with somewhat weak water flow (6 liters per minute or less, normal temperature tap water). ● Do not open or close the slot cap of microSD memory card/SIM card slot. ● Do not pour water directly on the slot cap of microSD memory card/SIM card slot.

③ Rinse the fingerprint sensor, earpiece, second-mic, stereo earphones port, mic/recorder mic, USB Type-C port, and speaker. ● If substance of foam hand soap or detergent for the tableware is remained on the second-mic, earpiece, mic/recorder mic, or speaker, may cause deterioration of the sound quality of ringtone or during a call due to clogging. ● Also, those on the USB Type-C port may cause malfunction such as charging failure. Thoroughly rinse it away.

④ Drain water (▶P.34). ● Dry well and then confirm that there is no water drop remained.

⑤ ㊟: All bandwidths between 2400 MHz and 2483.5 MHz are used, and the bandwidth used by mobile object identification devices can be avoided.

Available channels vary by countries. To use wireless LAN (Wi-Fi) overseas, check the conditions such as available frequency and regulation for the country. ● Use an airplane, confirm with airline company in advance. When the product is out of service area, channels 12 and 13 of 2.4 GHz band are not available regardless of whether you are in Japan or abroad.

● **5 GHz frequency band precautions**

Using wireless LAN (Wi-Fi) in 5.2/5.3 GHz outdoors is prohibited by law (except when communicating with a base station of data communication system for 5.2 GHz high power frequency band or relay station). Channel numbers and frequency bands available in Japan are as follows.

① ㊟: Radio equipment that uses the 2400 MHz band. ② ㊟: DS : The modulation is the DS-SS method. ③ ㊟: OF : The modulation is the OFDM method. ④ ㊟: The expected interference distance is 40m or shorter.

● **Provisions for free-of-charge repair**

1. Please notify us of the production number (IMEI number) for repair request. The production number (IMEI number) can be checked on the product main unit, sticker on the outer packaging box etc. 2. During the warranty period, we will repair the product free of charge for the malfunction under the condition that it is used correctly in line with the directions given in the instruction manual. 3. Even if the warranty period has not expired, a fee will be charged for repair under the following circumstances. (or, repair may not be possible). ① The product has not been used correctly in line with the directions given in the instruction manual. ② The malfunction or damage is due to unauthorized repair or modification of the product. ③ The product has been repaired other than at our specified repair offices. ④ The malfunction or damage is due to negligence in use, or handling, or due to an accident. There are signs of the product having been dropped, wet, exposed to humidity, etc. ⑤ The malfunction or damage is due to natural disasters (earthquakes, storm or flood damage, etc.), fire, salt damage, abnormal voltage, etc.

4. Repair may not be possible depending on the degree of damage. 5. The Company shall have no liability for any damage or loss resulting from the malfunction of the product. 6. The Company shall not bear any responsibility for accidents resulting from use of the product having been connected to unspecified devices. 7. Do not accept requests for service calls to the owner's home, place of business, etc. 8. This warranty is valid only in Japan. 9. This warranty guarantees repair free of charge during the period and under the conditions specified on this warranty card. Thus this warranty does not limit the legal rights of the owner with respect to the issuer of this warranty card (the guarantor) or any other business person or enterprise.

● **SIM card** The SIM card is lent to you by your carrier. In case of loss or damage, the card will be replaced at your expense. When a malfunction is suspected, or in case of theft or loss, contact お問い合わせ先 (For inquiries) on 取扱説明書 詳細版 (Full Instruction Manual) (Japanese).

① You can use the product in a bathroom. ● After using in a bathroom, drain water in the specified steps (▶P.34). ● Do not immerse the product into a bathtub. Also, do not use the product in hot water. May cause malfunction. If you should fall the product into the bathtub, immediately pick it up to drain water in specified procedure (▶P.34).

● Never put the product in hot spring water or water containing soap, detergent or bath powder which is other than those specified (▶P.30). In case the product gets wet with water other than tap water, wash it in the procedure previously mentioned (▶P.30). ● In a bathroom, use the product under the condition of the temperature 5°C ~45°C and the humidity 45% - 99% (however, temperature of more than 36°C or humidity of more than 86% is limited to temporary use). Note that the Company does not guarantee the successive operations of every function. ● Do not put hot water from a faucet or shower. ● If you bring the product from a cold place to a warm place, dew may be condensed on the display or surface of the case due to sudden changes of temperature. When you are hard to watch the display or make touch operations due to dew condensation, wait for a while until the temperature of the product become normal.

Slot cap of microSD memory card/SIM card slot

● Make sure that the slot cap of microSD memory card/SIM card slot is firmly closed. Just a small particle (a hair etc.) between contact surfaces can cause water intrusion or dust penetration. ● Do not open or close the slot cap of microSD memory card/SIM card slot with gloved hands. Just a small particle (a hair etc.) between the contact surfaces can cause water intrusion or dust penetration. Wipe off any minuscule droplets of water or dirt with a clean dry cloth before closing the slot cap. ● If the slot cap of microSD memory card/SIM card slot is deteriorated or damaged, the waterproof/dustproof property becomes ineffective.

● **After the product gets wet**

● After the product gets wet, drain water, and wipe with a clean dry cloth. ● In cold climates, water on the product might turn to frost. Using with frosted might cause a malfunction. Do not leave the product without wiping off water.

● **2.4 GHz frequency band precautions**

① Wipe off water drained from the product with a dry, clean cloth etc., and dry naturally. ● Water, if any, remaining in the product may ooze up after wiping off. ● Do not wipe off the remaining moisture in the gaps directly with a cotton swab etc.

● **Notes on using Bluetooth®/wireless LAN (Wi-Fi) functions**

● The Bluetooth® and wireless LAN (Wi-Fi) functions of the product conform to Japanese domestic standards, FCC standards, and EC Directives, and has been certified. ● Use of Bluetooth® function and Wireless LAN (Wi-Fi) function may be restricted in some countries/regions. Before using the product overseas, check the relevant laws and regulations of the country/region you visit. ● The 2.4 GHz band used by wireless LAN (Wi-Fi) and Bluetooth® devices is shared by various other devices. For this reason, the communication speed and connectable range may be decreased, or disconnection may occur, due to interference from other devices. ● Do not use the product in places where electromagnetic waves are generated or near electric products, AV and OA equipment, or other magnetized devices. ● Subjecting the product to magnetic or electrical noise may increase noise and prevent it from performing communications (The product is particularly susceptible to noise when it is used near a microwave oven).

● **Mobile Phone Etiquette**

● **Use of the product is not allowed in the following places!**

● Do not listen to music or watch videos, etc. while driving a car or motorcycle, or riding a bicycle. Use of mobile phones while driving a car or motorcycle is prohibited by law (Use of mobile phones while riding a bicycle may also be punishable by law). In addition, stay alert to the traffic around you even when walking. Surrounding sounds may not be heard clearly, and gazing at the screen might distract your attention causing a traffic accident. Be especially careful at railroad crossings, station platform and pedestrian crossings. ● Use of mobile phones on board is restricted. Follow the instructions of each airline. ● Consider people around you ● To prevent ringtone from bothering other people, not only refrain from making a call but also power off or use Silent mode at a movie theater, theater, museum, library, etc. ● In a city area, use in a place where you do not bother people walking. It is extremely dangerous to walk while looking at the screen of the mobile phone. Do not make calls or operate a mobile phone while walking or by stopping suddenly. ● Move to a place where you do not disturb others while you are in sinkansen, a hotel lobby etc. ● Be careful not to be loud while talking. ● Be careful of sound leakage from earphones in trains or other places with many people around you. ● Ask permission if you take photos with your mobile phone camera. ● When using the camera, follow common rules of etiquette regarding camera use. ● There may be a person with a cardiac pacemaker nearby at a place filled with people such as in a crowded train. Set "Airplane mode" or turn the product off beforehand. ● When a medical institution has laid down designated areas where use of the product is prohibited or is not allowed to be brought in, abide by the instructions of that medical institution.

② You can use the product in a bathroom. ● After using in a bathroom, drain water in the specified steps (▶P.34). ● Do not immerse the product into a bathtub. Also, do not use the product in hot water. May cause malfunction. If you should fall the product into the bathtub, immediately pick it up to drain water in specified procedure (▶P.34).

● Never put the product in hot spring water or water containing soap, detergent or bath powder which is other than those specified (▶P.30). In case the product gets wet with water other than tap water, wash it in the procedure previously mentioned (▶P.30). ● In a bathroom, use the product under the condition of the temperature 5°C ~45°C and the humidity 45% - 99% (however, temperature of more than 36°C or humidity of more than 86% is limited to temporary use). Note that the Company does not guarantee the successive operations of every function. ● Do not put hot water from a faucet or shower. ● If you bring the product from a cold place to a warm place, dew may be condensed on the display or surface of the case due to sudden changes of temperature. When you are hard to watch the display or make touch operations due to dew condensation, wait for a while until the temperature of the product become normal.

Slot cap of microSD memory card/SIM card slot

● Make sure that the slot cap of microSD memory card/SIM card slot is firmly closed. Just a small particle (a hair etc.) between contact surfaces can cause water intrusion or dust penetration. ● Do not open or close the slot cap of microSD memory card/SIM card slot with gloved hands. Just a small particle (a hair etc.) between the contact surfaces can cause water intrusion or dust penetration. Wipe off any minuscule droplets of water or dirt with a clean dry cloth before closing the slot cap. ● If the slot cap of microSD memory card/SIM card slot is deteriorated or damaged, the waterproof/dustproof property becomes ineffective.

● **After the product gets wet**

● After the product gets wet, drain water, and wipe with a clean dry cloth. ● In cold climates, water on the product might turn to frost. Using with frosted might cause a malfunction. Do not leave the product without wiping off water.

● **2.4 GHz frequency band precautions**

① You can use the product in a bathroom. ● After using in a bathroom, drain water in the specified steps (▶P.34). ● Do not immerse the product into a bathtub. Wipe off any minuscule droplets of water or dirt with a clean dry cloth before closing the slot cap. ● If the slot cap of microSD memory card/SIM card slot is deteriorated or damaged, the waterproof/dustproof property becomes ineffective.

After the product gets wet

● After the product gets wet, drain water, and wipe with a clean dry cloth. ● In cold climates, water on the product might turn to frost. Using with frosted might cause a malfunction. Do not leave the product without wiping off water.

● **2.4 GHz frequency band precautions**

① Wipe off water drained from the product with a dry, clean cloth etc., and dry naturally. ● Water, if any, remaining in the product may ooze up after wiping off. ● Do not wipe off the remaining moisture in the gaps directly with a cotton swab etc.

● **Notes on using Bluetooth®/wireless LAN (Wi-Fi) functions**

● The Bluetooth® and wireless LAN (Wi-Fi) functions of the product conform to Japanese domestic standards, FCC standards, and EC Directives, and has been certified. ● Use of Bluetooth® function and Wireless LAN (Wi-Fi) function may be restricted in some countries/regions. Before using the product overseas, check the relevant laws and regulations of the country/region you visit. ● The 2.4 GHz band used by wireless LAN (Wi-Fi) and Bluetooth® devices is shared by various other devices. For this reason, the communication speed and connectable range may be decreased, or disconnection may occur, due to interference from other devices. ● Do not use the product in places where electromagnetic waves are generated or near electric products, AV and OA equipment, or other magnetized devices. ● Subjecting the product to magnetic or electrical noise may increase noise and prevent it from performing communications (The product is particularly susceptible to noise when it is used near a microwave oven).

● **Mobile Phone Etiquette**

● **Use of the product is not allowed in the following places!**

● Do not listen to music or watch videos, etc. while driving a car or motorcycle, or riding a bicycle. Use of mobile phones while driving a car or motorcycle is prohibited by law (Use of mobile phones while riding a bicycle may also be punishable by law). In addition, stay alert to the traffic around you even when walking. Surrounding sounds may not be heard clearly, and gazing at the screen might distract your attention causing a traffic accident. Be especially careful at railroad crossings, station platform and pedestrian crossings. ● Use of mobile phones on board is restricted. Follow the instructions of each airline. ● Consider people around you ● To prevent ringtone from bothering other people, not only refrain from making a call but also power off or use Silent mode at a movie theater, theater, museum, library, etc. ● In a city area, use in a place where you do not bother people walking. It is extremely dangerous to walk while looking at the screen of the mobile phone. Do not make calls or operate a mobile phone while walking or by stopping suddenly. ● Move to a place where you do not disturb others while you are in sinkansen, a hotel lobby etc. ● Be careful not to be loud while talking. ● Be careful of sound leakage from earphones in trains or other places with many people around you. ● Ask permission if you take photos with your mobile phone camera. ● When using the camera, follow common rules of etiquette regarding camera use. ● There may be a person with a cardiac pacemaker nearby at a place filled with people such as in a crowded train. Set "Airplane mode" or turn the product off beforehand. ● When a medical institution has laid down designated areas where use of the product is prohibited or is not allowed to be brought in, abide by the instructions of that medical institution.

② You can use the product in a bathroom. ● After using in a bathroom, drain water in the specified steps (▶P.34). ● Do not immerse the product into a bathtub. Also, do not use the product in hot water. May cause malfunction. If you should fall the product into the bathtub, immediately pick it up to drain water in specified procedure (▶P.34).

● Never put the product in hot spring water or water containing soap, detergent or bath powder which is other than those specified (▶P.30). In case the product gets wet with water other than tap water, wash it in the procedure previously mentioned (▶P.30). ● In a bathroom, use the product under the condition of the temperature 5°C ~45°C and the humidity 45% - 99% (however, temperature of more than 36°C or humidity of more than 86% is limited to temporary use). Note that the Company does not guarantee the successive operations of every function. ● Do not put hot water from a faucet or shower. ● If you bring the product from a cold place to a warm place, dew may be condensed on the display or surface of the case due to sudden changes of temperature. When you are hard to watch the display or make touch operations due to dew condensation, wait for a while until the temperature of the product become normal.

Updating Software

● **Cautions for use**

● You are charged for the data communication according to your contract details when accessing the Internet from the product via mobile data communication. A large amount of data communication is required especially for upgrading the OS. ● You are recommended to back up your data before updating software. ● If software update has failed or stopped, perform the same procedure again. ● When using the product overseas, the software update functions may not be available. ● For details, refer to 取扱説明書 詳細版 (Full instruction manual) (Japanese).

Downloading and updating software

The update software can be downloaded from the settings menu of the product directly via Wi-Fi® Internet.

1 **In the Home screen, slide the screen up -- [Settings] -- [System] -- [Advanced] -- [System update]**

After that, follow the onscreen instructions.

● **Performance parts for repair** The Company retains performance parts for repair of the main unit and its peripherals for four years after discontinuation of production. *Performance parts for repair* refers to parts required for maintaining the functions of the product.

① You can use the product in a bathroom. ● After using in a bathroom, drain water in the specified steps (▶P.34). ● Do not immerse the product into a bathtub.
