TORQUE 606

Quick Start Guide

- In this manual, "TORQUE GO6" is usually referred to as "the product" or "main unit".
- · In this manual, "Quick Start Guide" (this manual) and "取扱説明書 (詳 細版) (Full Instruction Manual)" (Japanese) are collectively referred
- to as "instruction Manual".

 In this manual, "microSD™ memory card (commercially available)" "microSDHC™ memory card (commercially available)" and "microSDXC™ memory card (commercially available)" are
- abbreviated as "microSD memory card" or "microSD".

 Company names and product names referred to in this manual are
- trademarks or registered trademarks of the respective companies. TM or ® may be omitted in this manual.
- October 2023, 1st Edition

Sold by: KDDI CORPORATION, OKINAWA CELLULAR TELEPHONE COMPANY Manufactured by: KYOCERA Corporation

4 Turn the Lock knob clockwise using a

Turn the Lock knob in the similar way as tightening a screw The Lock knob has been tightened when it does not go more.

Tightening the Lock knob forcibly may cause damage.

* The structure of the Lock knob is changed from that of TORQUE G03/G04/5G so that the back cover can be fixed

Safety Precautions (Observe Strictly)

- Before using the product, thoroughly read this "Safety Precautions" for proper use. Please keep this manual carefully after reading it.
- These precautions describe instructions that should be observed to prevent injury to the customer and others, or damage to property using the product. - 7 -

Do not leave the product on unstable or sloping surfaces. Be careful especially when the product is set to vibrate. The product may fall and cause injuries.

Do not use or store the product in humid or dusty places, or places that get hot. Doing so may cause fire, burns, or electric shock

For details on water/dust resistance, refer to the ▶P.43 "Notes on Water, Dust, Seawater, Shock

Resistance, and Washing the Product" When children use the product, do not let them use

incorrectly without instruction by an adult for proper Doing so may cause accidental swallow, injuries, or

Keep the equipment out of the reach of babies or infants, and store it where pets cannot touch it. Not doing so may cause accidental swallow, injuries, or

electric shock Be careful when using the product continuously for a long time or charging as it gets hot. Be careful of contacting with the product continuously by putting the product in a pocket of clothes or falling asleep etc. The product, battery pack, or specified charger (sold separately) may become hot when using applications calling, doing data communication, watching videos

continuously, or while charging. Depending on your physical predisposition and physical condition, contacting with a high temperature part continuously may cause skin redness, itching, rash, or low-

Do not touch the battery pack with wet hands.
Doing so may cause burns or electric shock.

Stop using the product immediately and move the battery pack away from fire if you notice unusual odor or leakage of fluids inside the battery pack. The battery fluid is flammable and could ignite, causing a fire, explosion, etc.

Prevent a pet from biting the battery pack. Not doing so may cause fire, burns, or injuries due to battery pack ignition, rupture, overheat, or leak.

↑ CAUTION

If fluid, etc. leaks out from the battery pack, do not let the fluid contact with the skin on your face or hands or clothes. Doing so may cause eye or skin problems.

If the internal matter comes into contact with your eves

mouth, skin or clothes, immediately rinse the contacted area with clean water. Also, if it comes into contact with your eyes or mouth,

seek medical treatment immediately after rinsing the

Do not discard the old product together with regular trash.

Doing so may cause fire, burns, or injuries, May damage the environment. After insulating the battery pack no longer needed with tapes, etc. on the connection terminal of the battery pack, and bring the battery pack to a sales outlet such as au Style/au shop. Alternatively if your local municipality has a battery recycling program dispose of it as provided for.

■ Precautions Common to the Main Unit, Battery Pack, Charger, SIM Card, Peripheral Devices

Do not use, store or leave the product in hot places (e.g. by the fire, near a heater, under a kotatsu or futon, in direct sunlight, in a car in the hot sun). Doing so may cause fire, burns, injuries, or electric

Do not put the product into or near a heating cooking device such as a microwave oven or IH cooker, or high-pressure container such as a pressure cooker. Doing so may cause fire, burns, injuries, or electric

- 9 -

Do not watch a repeatedly flickering screen for a long time.

consciousness, etc. Do not allow water or other liquids (drinking water, perspiration, seawater, urine of pet animals, etc.), metal pieces, flammable material or foreign object into the SIM card/microSD card slot on the product. Do not mistake the place and direction of the SIM card or the microSD memory card.

Doing so may cause fire, burns, injuries, or electric shock. Do not expose the camera lens to direct sunlight for an extended period. Doing so may cause fire, burns, or injuries by the

light-collecting mechanism of the lens. When sounding the buzzer, do not sound it close to your ear. Doing so may cause hearing impairment or other difficulty.

Turn off the product or set it to Airplane mode before going aboard an airplane. Since using the product on airplanes is restricted, follow the instructions given by the respective airlines If any functions that power on the product automatically

are activated, deactivate them. The product's signals may adversely affect on-board If you commit a prohibited act while using the product on

an airplane, you might be punished by law. Follow the instructions given by the respective medical

institution regarding the use of the product in a hospital. Turn off the product in areas where the use of the The product's signals may affect electronic equipment

Do not connect the voltage converter (such as a travel converter for overseas travel) to the specified charger (sold separately).

Doing so may cause ignition, overheating, or electric

Do not apply excessive force on the connection part with the specified charger (sold separately) connected to the product.

Doing so may cause fire, burns, injuries, or electric shock. Do not charge anything that has gotten wet with water or other liquid (drinking water, perspiration, seawater,

urine of pet animals, etc.) with a wireless charger product (commercially available). Do not use it near water, such as in a bathroom or near a humidifier.

Doing so may cause fire, burns, injuries, or electric

Do not touch the cord, charging terminal or power plug of the specified charger (sold separately) or wireless charger product (commercially available) with wet Doing so may cause fire, burns, or electric shock.

Use the product at the specified power supply voltage. When charging the product overseas, use the specified charger (sold separately) for global use. ncorrect power supply voltage may cause fire, burns, or

electric shock. AC adapter: 100 VAC (Connect to an AC outlet for internal household use) AC adapter for global use: 100 VAC to 240 VAC (Connect to an AC outlet for internal household use)

Always remove the power plug from an outlet when Pulling the cord of the specified charger (sold cleaning the equipment. separately) may damage the cord and cause fires, burns, Not doing so may cause fire, burns, or electric shock.

⚠ CAUTION

Do not keep touching continuously the specified charger (sold separately) when it is connected to an Doing so may cause burns.

■ SIM Card

CAUTION

Be careful of the cut surface when handling the SIM card as it may damage a part of your body such as fingers, etc.

The cut surface may cause injuries with adhered meta pieces.

2 Remove the back cover on the back side of the product

Lift the back cover by the notch of the cover using fingertips

Attaching the back cover

■ Slide the battery lock to the △ (閉: close) direction if it is not locked

The battery lock is locked and the battery pack is fixed.

Do not cover or wrap the product with bedding, etc. while using or charging the product. Doing so may cause fire or burns

Do not adhere anything metal (stickers, etc. containing metal) between a wireless charger product (commercially available) and the back of the product or the back cover. Doing so may cause fire, burns, or injuries. Do not place anything metal (straps, clips, etc.

containing metal) between a wireless charger product

(commercially available) and the back of the product. Before charging with a wireless charger product (commercially available), first remove any commercially available cover, etc. attached to the product.

The material and thickness of the cover or any foreign matter such as dirt caught between the product and the ver may prevent normal charging and cause fire, burns, or injuries. Turn the product off near precision control and

faint-signal electronic devices. Radio waves may cause malfunctioning or otherwise affect the electronic devices. Examples of electronic equipment to avoid: a hearing aid, an implanted pacemaker, an implanted cardioverter-defibrillator, other electronic medical equipment, or other automatic control devices, etc. To ise an implanted pacemaker, an implanted cardioverter-defibrillator, or other electronic medical equipment, check with electronic medical equipment manufacturer or vendor to determine how devices are affected by radio waves before using.

- 12 -

To use the product in a car, check with automobile manufacturer or dealer to determine how vehicle devices are affected by radio waves before using. In rare cases, using the phone in some vehicle mo can cause the vehicles electronic equipment to malfunction. In that case, stop using the product

If you develop skin problems, stop using the product immediately, and see a doctor. ching, rashes, eczema, etc. sometimes occurs depending on your physical constitution and condition.

For material of each part ▶P.27 "Material List" Make sure that there are no adhered metal pieces (cutter blade, staples, etc.) as the speaker or camera part of this product generates magnetism.

Not doing so may cause injuries with adhered metal Use the product in a well-lighted area and put some

distance between you and the display when watching the display. Using the product in dark places or near eyes may affect

■ Battery Pack

Do not allow metal fragments (necklace, hairpin) or conductive materials to come into contact with the battery pack. Do not bring or store the battery pack either with these materials Doing so may cause fire, burns, or injuries

■ Use near Medical Instruments and Inside **Medical Facilities**

⚠ WARNING

Wearers of medical equipment such as implanted pacemakers or defibrillators must carry and use the product at least 15 cm away from the implanted device. Radio waves may affect the performance of electronic medical equipment. When using electronic medical devices as home medica

implanted cardioverter-defibrillator outside medical facilities, check individually with the manufacturer of the electronic medical equipment regarding the influence of radio waves. Radio waves may affect the performance of electronic

treatment other than an implanted pacemaker and an

medical equipment. Make sure that the product will not emit any signals (turn off power, put it in Airplane mode, etc.) if within 15

cm of those around you, such as where crowded and you cannot move freely. There may be people with an implanted pacemaker or an implanted cardioverter-defibrillator nearby. Radio waves

observe the regulations of the facility. Radio waves may affect the performance of electronic medical equipment.

- Do not remove the wireless charging antenna on the back side of the back cover. Removing the wireless
- charging antenna will prevent wireless charging. Do not cover the light sensor with your finger or put a sticker on it. May hinder the sensor from detecting the ambient light level and functioning correctly.
- Do not put a sticker, etc. on the proximity sensor. May cause the sensor to malfunction and make the display always turned off while receiving a call or during a call.
- Any soiling on the proximity sensor may cause misoperation. Wipe the sensor with a soft, dry cloth.
- Do not use the product without the back cover. Do not leave or store the product in this condition. Doing so may allow dust or other foreign matter to enter product and cause malfunction.
- Keep the USB cover, etc. closed when using the product. Using the product with the covers opened can allow dust, water, etc. to enter and cause malfunction.
- Do not allow liquids, metal objects, or other foreign objects to get inside of the SIM card or microSD memory card slot. Doing so may cause malfunction
- Do not give strong impact on the product such as dropping, throwing, stomping. Doing so may cause malfunction. • Do not place the product directly on sand at a beach,
- etc. If sand or other small particles get inside the mouthpiece (microphone), receiver, or speaker, etc., it may cause the volume to drop or malfunction.

■ Copyrights and Rights of Portrait

- If the data you shot or recorded using the product or the data you downloaded from the Internet, etc. is in part or in whole protected by the third party's copyright, you are not allowed to copy, distribute, publicly send, modify the data without consent of the copyright holder, except for personal use, under the copyright law. In addition, do not use or modify portraits or names of
- other individuals without their consent, as it may infringe on rights of portrait. Note that shooting and recording might be restricted at some live performances, shows and exhibitions even for
- Be careful about the copyright and portrait right when
- posting images you shot, etc. on Internet/homepages. ■ Backup Content on the Product

Please back up important content registered to the

product or downloaded to the product from an outside source. Content recorded to memory on the product sometimes disappears or is altered by unexpected factors, such as static electricity or a fault, repair. mishandling, etc.

■ FCC Certification Information

- This product is certified by the Federal Communications Commission (ECC) The product's FCC ID is JOYEB1157.
- You can view this certification in the following way. How to confirm: Swipe up the Home screen→[Settings]→[About
- phone]→[Compliance information]

Precautions on Charging Accessories and optional accessories are not water/dust resistant

Note the following before and after charging.

Never charge the battery if the product is wet. Doing so may cause fire hums injuries or electric shock

- Make sure the product is not wet. If charging after the product has gotten wet, first drain water well and wipe with a dry, clean cloth, etc., before opening the USB cover, etc. • If the USB cover was opened to charge, close the cover firmly after charging.
- Do not touch the specified charger (sold separately) with wet.
- hands. Doing so may cause electric shock. Do not expose the specified charger (sold separately) to water.
- Do not use it near water, such as in a bathroom, shower room, kitchen, or washroom. Doing so may cause fire, burns, electric shock, or malfunction. Do not bring it into a bathroom, etc. eve when you are not charging with it. Doing so may cause fire, burns,

Handling Precautions

These precautions are provided to prevent product faults and to ensure that performance can be fully demonstrated. Thoroughly read these precautions to ensure correct use.

■ Precautions Common to the Main Unit, Battery Pack, Charger, SIM Card, Peripheral Devices

- Do not apply excessive force to the product during use. Be sure not to put the product into a tightly packed bag or place a heavy object on the product in a bag. Sitting on the product in your pocket might damage the display or internal circuit board resulting in a damage or malfunction. Keeping an external connection device connected to the external connection terminal might damage the connector resulting in a malfunction. Such damage and malfunction are not covered by the warranty, even if there is no external
- To ensure the waterproof property (equivalent to IPX5 and IPX8) or the dustproof property (IP6X) of the product, use the product with the back cover or USB cover attached.
- Note that the waterproof property is not guaranteed in every usage condition. Do not allow water to get inside the product, or splash water on a specified charger (sold separately) or optional accessories. Do not attach/ remove the back cover, or open/close the USB cover in the rain or with any water on the surface of the product. Doing so may cause water intrusion resulting in internal corrosion. Malfunctions determined to be caused by such water

intrusion are not covered by the warranty.

- 29 -

Touch Panel

- The touch panel is designed to be lightly touched by fingers. Avoid pressing forcefully or using sharp objects (fingernail, ballpoint pen, pin, etc.). The touch panel might not respond to the following
- types of operation. These may also result in malfunction. with fingernails with another object placed on the operation area
- with the display covered with a sticker or sheet (commercially available protective film or privacy
- Any soiling on the display surface may cause false operation. Wipe the display with a soft, dry cloth.
- Putting stickers or sheets (e.g. commercially available protective film or privacy protector) on the display might cause incorrect operation of the touch panel. Take care not to put the touch panel close to metals or
- other conductive materials, as it might cause false operation of the touch panel. Touching operation with gloved hands is available, but
- touching the panel may not work properly depending on the thickness and material of gloves. • Wipe off any water droplets on gloves if you cannot operate the product with water drops attached to gloves.
- If you cannot operate with gloves which does not fit your finger, try pressing the display with the flat part of your finger. Priority is given to operation with a bare hand if operating
- with a gloved hand and bare hand at the same time.

- 36

Notes on Water, Dust, Seawater, Shock Resistance, and Washing the Product

This product is protection-rated (JIS C0920) at IPX5/8-1 water resistance and seawater capability*2 as well as IP6X-equivalent* dust resistance when the back cover and USB cover are completely attached. In addition, this product can be washed with a specified ethod using hand soap/body soap*4 for home use (by Company The product also meets 29 ruggedization test requirements, based

on 21 categories of the US Department of Defense's MIL-STD-810H standards and including 8 categories from proprietary tests (by Company test methods). For details on test items, refer to "取扱 説明書 (詳細版) (Full Instruction Manual)" (Japanese). Product capabilities are confirmed in a test environment, and does not guarantee capabilities under all conditions of actual use. No guarantees are made with regard to non-breakage or non-fault. Before using the product, thoroughly read "Important Items to emember before Use" to ensure correct use. Failure to follow the contents described in these sections may cause the intrusion of water, sand or other foreign material, resulting in overheating, gnition, electric shock, injury or a fault.

- *1 IPX5 equivalent means that the product will maintain its operability as a phone even if it is sprayed with water from a 6.3 n diameter nozzle at a distance of about 3 meters for more than 3 minutes at a rate of about 12.5 liters per minute from any direction. IPX8 equivalent indicates no water seepage and phone capability is maintained even when gently submersed and left at the bottom of a tank for about 30 minutes filled with still, normal-temperature tap water at a depth of 1.5 m.
- *2 Indicates no water seepage and phone capability is maintained even when submersed in normal-temperature, 20-kPa (maximum depth of 2.0 m) seawater* for about 60 minutes.

Notes on Using Bluetooth®/ Wireless LAN (Wi-Fi®) Function

- The connections between this product and all other Bluetooth and wireless LAN (Wi-Fi®) devices have not been confi Therefore, connections with all Bluetooth® and wireless LAN /i-Fi[®]) devices are not guaranteed.
- This product supports security features for wireless communications that are compliant with the $\mathsf{Bluetooth}^{\scriptscriptstyle{(\!0\!)}}$ and wireless LAN (Wi-Fi®) standard specifications, but the security nay not be sufficient depending on the usage environment and configuration. Be careful when making data communication using Bluetooth® or wireless LAN (Wi-Fi®) function.

 • Wireless LAN (Wi-Fi®) has the advantage that it can be freely
- connected anywhere within the radio wave range, as it uses radio waves for exchanging information. At the same time, there is a risk that a malicious third party may obtain unauthorized access if security settings have not been configured. You are recommended to configure security settings before use at your ecision and responsibility.
- The Company assumes no responsibility for leakage of data or information that may occur during Bluetooth®/wireless LAN (Wi-Fi®) communication. Since Bluetooth[®] and wireless LAN (Wi-Fi[®]) functions use the same frequency band, using the both functions at the same
- time may cause radio wave interference resulting in decreased communication speed or disconnection from the network. If connection fails, stop using either of the Bluetooth® and Wireless LAN (Wi-Fi®) functions.

- 50 -

- Do not use the following products in extremely hot, cold or humid places. (Use within an ambient temperature range of 5°C to 35°C and humidity range of 35% to 90%. Temporary use at -21°C to 50°C is allowed.) · Main unit
- Battery pack, SIM card (attached to the main unit) Do not use the following products in extremely hot, cold or humid places.
- (Use within an ambient temperature range of 5°C to 35°C and humidity range of 35% to 85%.)
- Charger
- Related accessories Do not use in places subject to lots of dust or vibration. Doing so may cause malfunction.
- Clean the external connection terminal, wireless charging antenna connection, and charging connection area with dry cotton swabs, etc. every now and then. Soiling may result in a poor connection. Do not exert a strong force to clean the respective connection terminals to prevent deformation.
- Clean the product with a soft dry cloth (such as the type used for eveglasses). Rubbing with a dry cloth forcefully may scratch the display. The display may be stained if splash or smear is left attached to the surface. Wiping the product using thinner, benzine, detergent, glass cleaner, etc. might erase the printing on the outer cover or cause malfunction. You can use isopropyl alcohol, ethanol, or sodium
- hypochlorite to wipe the product with a soft cloth. * For details on cleaning the product, refer to "取扱説明書 (詳 細版) (Full Instruction Manual)" (Japanese). - 30 -

OLED Display

- OLED display may have partially dark part or the colors may be changed if a same image has been displayed for a long time, or the brightness of backlight is set to too much brighter than that of the surrounding environment. or it has been used for an extremely long time. That is due to property of OLED display and not a malfunction.
- OLED display is made with extremely advanced technology and it may have slightly missing pixels or pixels which are always lit. Also, it may have unevenness of color streak or brightness, or color change depending on direction you are looking. That is due to structure of OLED display and not a malfunction. Please be forewarned. Subjecting an OLED display to direct sunlight for a long
- time may cause a malfunction. Take care when placing at the window or outdoor.

■ Battery Pack

(The battery pack of the product is a lithiumion battery.) The battery pack is not fully charged at the time of

Li-ion 00 purchase. Charge the battery before using the product. Also charge the battery after long periods of disuse before using the product.

 Use in very hot or cold environments, for example, when left in an automobile with the windows closed in summer, will cause the battery capacity to drop and shorten the available battery usage time. This will also shorten the battery pack's service life. Try to use the battery as much as possible at room temperature.

- 37 -

- * Seawater: Evaluation made with Company original standards using artificial seawater simulate the seawater composition of the Japanese coast. Regarding use at pools, product has been assessed according to Japanese domestic disinfection standards.
- *3 IP6X-equivalent indicates ability to resist dust intrusion even when placed in a test device containing test dust particles (diameter 75 μ m or less) for 8 hours.
- An endurance test (cycle testing by washing/rinsing the product using foaming hand soap/body soap) in KYOCERA's individual method is done. Use foaming hand soap or body soap manufactured by a domestic manufacturer. Do not use hand soap for kitchen, business use, or free of additives, or do not use body soap for business use, free of additives or alkaline
- · Rinse the product with mild flow and remove foam thoroughly After washing the product, tap it lightly with a soft dry cloth and drain water thoroughly.
- When using, attach the cover, etc. securely. Do not mix hand soap/body soap with different one. Product capabilities are confirmed in a test environment, and does not guarantee all kinds of foaming hand soap/body soap can be used for this product. No guarantees are made with regard to non-fault

Operation of the product in every possible condition during actual use is not guaranteed. Malfunctions determined to be caused by nishandling by the customer are not covered by the warrantv.

Important Items to Remember before Use

- Close firmly the USB cover of the product, and make sure the back cover is completely attached. Water resistance is effective vhen completely sealed
- Never open/close the back cover or USB cover when the product or your hands are wet.

Notes on Data Communication

- Since constant Internet connection is possible with the product. data communication may be performed automatically by some applications, resulting in high data communication charges. herefore, subscription to a data flat-rate service/data communication charge discount service is recommended.
- Connection for browsing homepages, downloading applications communication using applications, sending/receiving e-mails and configuring various settings is by the Internet, and data communication charge applies.

Notes on Call Charges

When you end a call, make sure to disconnect the call, If you forget to disconnect, the call charges may be higher

■ Recording Diagnosis and Usage **Condition Data**

KYOCERA Corporation asks for users' cooperation in order to improve the quality of products and services. KYOCERA Corporation records and saves data of failure diagnosis and the usage conditions (application usage by users, log elated to error, detail information of application usage by users (specified functions, usage frequency, memory/battery status)) in the product in order to track and cope with diagnosis events such as unexpected shutdown or system error for the purpose of improvement of quality and services. Those information may be collected upon repair request by user after obtaining the user agreement.
