\*1 Be careful to not cover over with your fingers, etc., while relevant functions are being used. In addition, do not insert the SIM card removal tool (sample) into the product since this might cause damage.

\*2 The product use it for both a receiver and a speaker.

- \*3 A protective film (sample) is already attached to the display.
- \*4 Do not cover with the sticker, etc. Functions may not work correctly. There may be flashing around the proximity/light sensor by the operation of the proximity/light sensor during a call, etc.
- \*5 The antenna is built into the product. Covering around the antenna by hand may affect calling quality / communication quality.

### memo

- Please use a specified charging equipment (sold separately).
- The battery is built into the product.
- Illustrations used in this manual are just images for explanations. They may be different from actual ones.

- For the latest information, please refer to the latest "オンラインマニュアル (Online Manual)" (Japanese) or the "取扱説明書 詳細版 (Full Instruction Manual)" (Japanese), available on the au website. <https://www.au.com/support/service/mobile/guide/manual/> (Japanese)
- For the latest information of the product, refer to the following website. <https://www.galaxymobile.jp/> (Japanese)
- When using a protective film, make sure that it is a product compatible with the fingerprint recognition sensor. If you attach a commercially available protective film on the display, fingerprint recognition may fail.
- The contents described in this manual may be different due to the version upgrade of the software of this product or the change / end of service. And the content of this manual is subject to change without notice.
