memo

- Please use specified charging equipment (sold separately).
- The battery is built into the product.
- Illustrations used in this manual are just images for explanations. They may be different from the actual ones.
- Do not fold the product in the reverse direction. That may cause the product to get damaged.
- When folding the product, do not insert foreign objects such as cards, coins, or keys, on the main display. The display may be damaged.
- Do not remove the protective film attached to the main display to prevent screen damage. If it is peeled off, it may be a paid repair when re-applying it. Also, do not attach any other films or stickers. Attaching them may damage the screen.
- The product is not dustproof. Do not allow sand or other fine particles to enter the product.

- For the latest information, please refer to the "取扱説明書 詳細版 (Full Instruction Manual)" (Japanese), available on the website of the contracted carrier.
- For the latest information on the product, refer to the following website.
<https://www.galaxymobile.jp/> (Japanese)
- The contents described in this manual may be different due to the version upgrade of the software of this product or the change / end of service. And the contents of this manual are subject to change without notice.
- Reproduction of the content of this manual in part or in whole is prohibited.
- Every effort has been made in the preparation of this manual. Should you notice any unclear points, omissions, etc., feel free to contact us.

Attaching the SIM Card

Turning the Power On

- 1 Press and hold [Side key]/Fingerprint recognition sensor for over 2 seconds

- 2 Swipe the screen up and down, left and right to unlock the screen

memo

- Press and hold [Side key]/Fingerprint recognition sensor and lower side of Volume key simultaneously for over 7 seconds, when the power cannot be turned off in the usual way or the screen freezes.

- ^{*1} Be careful to not cover over with your fingers, etc. Related functions may not work properly. In addition, do not insert the SIM card removal tool (sample) into the product since this might cause damage.
- ^{*2} The product contains magnets, which may affect medical devices, such as pacemakers or implantable cardioverter defibrillators. If you are using any of these medical devices, keep the product more than 15cm from them when carry or use this product. And be especially careful not to put it in your jacket pocket. If you suspect any interference with your medical device, stop using the product and consult your physician or your medical device manufacturer.
- ^{*3} Keep this product away from objects that may be affected by magnetism. Objects such as credit cards, passbooks, access cards, boarding passes, or parking passes may be damaged or disabled by the magnets in the product.
- ^{*4} A protective film is already attached.
- ^{*5} There is a crease in the center, which is the normal condition for this product.
- ^{*6} Do not attach any sticky material such as film or stickers to the main display.
- ^{*7} Do not push or forcefully press this product such as a pen or your fingernail. Doing so could result in scratching or puncturing them.
- ^{*8} Do not cover the product with stickers or other materials. Functions may not work correctly.

- ① The antenna is built into the main unit. For the antenna position, please refer to the “取扱説明書 詳細版 (Full Instruction Manual)” (Japanese)
