■ Precautions common to the product

⚠ Danger

main unit, internal battery, charging equipment, SIM card, accessory

Do not use, store, or leave the product in a place subject to high temperature or in places where heat builds up (such as close to fires or heating devices, inside kotatsu or bedding, under direct sunlight, or in a car on an extremely hot day). May cause fire, burns, injuries or electric shocks, etc.

Do not pour sand, soil or mud on the product or place the product directly on sand, soil or mud. Avoid touching the product with a hand covered with May cause fire, burns, injuries, electric

11

Do not use or store the product in damp, dusty or hot areas.

May cause fire been also as the store that areas.

Children using the product should be instructed in proper operation by an adult. Make sure they use the product correctly.

May cause fire, burns, or electric shocks, etc.

For waterproofness, refer to the following:

▶P.40 "Precautions for Waterproofness"

May be accidentally swallowed, or cause injuries, electric shocks, etc.

Do not place the product within reach of infants or where pets can touch it.

Please pay particular attention to the storage places for small parts such as SIM card tray and SIM card removal tool (sample), etc. May be accidentally swallowed, or cause injuries, electric shocks, etc.

Note that the temperature may become high when the product is used

continuously or when the product is being charged. Also, be careful not to touch the product continuously and unintentionally by putting it in a clothing pocket or falling asleep. The temperature of the product or designated charging equipment (sold separately) may become high during continuous use or charging, such as when using applications, making calls, communicating data, or watching videos.

Continuous direct contact with hightemperature areas may cause skin redness, itching, rash, or low-temperature burns depending on your constitution or physical condition. 17

· Do not apply excessive pressure to the folded portion of the main display. Doing so may damage the main display. The product should be opened with both hands

Glass

· When carrying the product in your pocket or bag, take care not to put the touch panel close to metals or other conductive materials, as it might cause false operation of the touch panel

■ Internal battery

product is a lithium-ion battery.) The internal battery is not fully charged at the time of

leaving the product in a closed car during the summer, will reduce the capacity of the internal battery and shorten the time it can be used. This will also shorten the life of the internal battery. Use the product at room temperature as much as possible.

 The internal battery gradually discharges after charging, even if the product is not used. Overdischarging may make it impossible to recharge the battery after a long period of inactivity, so regular recharging is recommended.

Depending on the use condition, the internal battery may be inflated as it comes close to the end of its service life. This is because of or caused by the properties of lithium-ion battery and does not pose any safety risks.

37

■ USB cable (CtoC) (sample) Cable TPE Plug (metal Nickel plating SUS304 Plug (outer PC 32

The internal battery is a consumable item. If the performance of the internal battery does not recover (for example, the usable time after each charge has become extremely short, the internal battery is swollen, etc.), stop using the battery as it is at the end of its service life As the battery is builtin, please check the "取扱説明書 詳細版 (Full Instruction Manual)"

 You are responsible for any damage caused by inserting your SIM card into some other IC card

Do not put stickers, etc. on the SIM card. · Do not insert an SIM card to which a conversion adapter is attached. Doing so may

 Do not performs actions that may damage the SIM card (for example, using in high temperature areas, tossing into fire, allowing foreign matter to come into contact with metal part, subjecting to shock, bending, applying heavy load, getting wet, etc.). It may cause data loss or other malfunctions

for any other purposes except for what is written in this manual, also do not use it on other mobile device. Doing so might cause the mobile device to break or damage it.

38

Handling Precautions

The following precautions are the main items that provided to prevent the product from getting a malfunction and to ensure that performance can be fully demonstrated. Thoroughly read these precautions to ensure correct use. For details, please refer to the "取扱説明書 詳細版 (Full Instruction Manual)" (Japanese).

Precautions common to the main unit, internal battery, charging equipment, SIM card, accessory

· In the following cases, do not use them in places that have extremely hot or low temperatures, or high humidity. (Use within an ambient temperature range of 5 °C to 35 °C and a humidity range of 35% to 85%. However it can be provisionally used if it is 36 °C to 40 °C.) The product main unit

- SIM card (when attached to the product main unit)

 In the following cases, do not use the product in extremely hot, cold or humid places. (Use within an ambient temperature range of 5 $^{\circ}\text{C}$ to 35 °C and humidity range of 35% to 85%.)

Charging equipment Accessory devices

 Clean the charging jack or the external connection terminal with dry cotton swabs, etc. every now and then. Soiled terminals might cause poor connection. Do not exert a strong force to clean the charging jack or the external connection terminal to prevent deformation. · Clean the product with a soft dry cloth (such as an eveglass cleaner). Scrubbing the display strongly with a dry cloth may scratch the display. The display may be stained if splash or smear is left attached to the surface. Wiping the product using alcohol, thinner, benzine detergent, glass cleaner, etc. might erase the printing on the outer casing or cause

28

· Use the product as far away as possible from a landline phone, TV, radio, etc., may cause affect the product

 The product may become warm while charging etc., depending on the situations, but this is not abnormal.

· Do not place the product near corrosive chemicals or in places where corrosive gas is

generated. Doing so may cause a fault.

Do not disassemble, modify or repair the product. Doing so might cause fault Modification of phones is in violation of the Radio Law and the Telecommunications · Do not use the product while walking or

bicycle. Using the product while driving a car or motorbike is prohibited by law. Use of a phone while riding a bicycle may be punishable by some regulations. Do not use outlets or wiring apparatus beyond its rating when charging the product, for

example, by connecting multiple devices to a

single power strip.

driving a car or riding a motorized bicycle or a

. The battery for the product is built-in and cannot be replaced by yourself. Please contact the "Inquiries" in the end of this manual to replace

 Do not fold the product in the reverse direction Doing so may cause damage to the product.

 Keep the product closed when carrying it in a bag, etc. Leaving it open may cause scratches

or damage to the main display.

Never use modified product. Use of a modified device violates the Radio Law and the Telecommunications Business Act. The product is compliant with rules on the technical standard conformance of specified wireless equipment based on the Radio Law and rules on the technology regulatory compliance of terminal device based on the Telecommunications Business Act. As proof of this, the "Technical Conformity Mark @ " is indicated in the product.

How to confirm: On the home screen. $\textbf{flick up} \rightarrow \textbf{[Settings]} \rightarrow \textbf{[About phone]}$ [Regulatory information]

If the modifications are made to the internal components, the certification of conformity with technical regulations will become not valid. Never use the product without the valid certification. Doing so violates the Radio Law and the Telecommunications Business Act.

 Take care not to place magnetized items such as magnetic cards, speakers and TV sets near the product, as it might cause malfunction. Putting a strong magnetism close to the product might cause false operation.

• Do not bring the product close to magnetized

objects such as cash cards, credit cards, and prepaid cards. Doing so might result in loss of recorded information

35

· The product has a built-in magnet. Keep the product away from objects that may be affected by magnetism (credit cards and medical devices). Users of medical devices should

websites, etc.

• When shooting important occasions, take a trial shot and check the shot image to make sure it is correctly shot. · Do not use the camera in places where shooting is not allowed.

Copyrights and rights of portrait

· You are not allowed to copy, distribute, publish, modify or edit the data you shot, recorded or downloaded using the product without the consent of the copyright holder except for permitted by copyright law such as reproduction or quotation for private use. In addition, do not use or modify portraits or names of other individuals without their consent, as it might infringe on rights of portrait and recording may be restricted at some live performances, shows and exhibitions even for purpose of private use

Be careful about the copyright and portrait right when publishing your photos on the Internet,

Precautions for Waterproofness The product is waterproof to IPX8¹ equivalent

34

protection level (JIS C 0920) standard (based on in-house testing) when the SIM card tray is fully installed. · Before using the product, thoroughly read the

'Important precautions" for proper use. Failure to observe the safety precautions may allow water, sand or other foreign objects to enter the product interior and cause overheating, ignition electric shocks, injuries, malfunction, etc *1 IPX8 equivalent means that a phone keeps functioning after being slowly

water at room temperature, left there for 30 minutes and then taken out. • The Company does not guarantee actua operations under all states. Malfunctions deemed to be caused by inappropriate operation by the customer are not covered by

submerged to depth of 1.5 m in static tag

Important precautions

· To ensure waterproof property of the product, make sure that the SIM card tray is securely installed.

· Never open or close the SIM card tray when your hand or the product is wet.

 Do not immerse the product in or splash the product with liquid other than tap water (seawater, pool, hot spring, soap water, detergent water, water with bath salts in it, alcohol, beverages, seasonings, etc.). Also, do not use the product in places subject to splashing with pet urine. If those liquids get on the product, wash it with clean water, wipe it with a soft, clean cloth, and allow it to dry completely before using it to maintain its waterproof performance.

· Do not place the product directly on beach sand, etc. Sand or other small particles might get inside the speaker, etc., causing the volume to drop. If sand gets into the interior of the product, it might cause overheating or a fault

 Do not use the product underwater or strike it against the surface of the water. Some functions such as touch operation may not work Do not use or store the product in a

hathroom. kitchen or other highly humid areas for a prolonged period. There may be some water remaining on the product even after draining it. The product can be used normally, but remember to keep it away from objects you do not wish to get wet. Also be

careful as your clothes, bag, etc. may get wet from the water remaining on the product. · You need to perform draining if water accumulates in the speaker, etc., temporarily

making it harder to hear the sound The product is not resistant to water pressure. Do not directly apply high water pressure to or immerse the product for a prolonged period.

· Do not wash the product using a washing machine or ultrasound cleaner

· Do not immerse the product in a bathtub. The product is not heat resistant. Abrupt temperature changes may cause condensation to form and may result in malfunctions. Wait for the product to reach

normal temperature when taking it into a warm hathroom etc. from cold areas

The product does not float in water Do not charge the product in the bathroom.
If the product gets wet, drain the water and

wipe off the water with a soft, dry, clean cloth.

41

• The waterproof performance of the product will not be maintained all the time, and its performance may deteriorate as a result of natural deterioration caused by the period of use and the environment in which it is used

For details, please refer to the "取扱説明書 詳 細版 (Full Instruction Manual)" (Japanese).

Notes on using Bluetooth®/Wireless LAN (Wi-Fi®) Functions

· The connections between the product and all other Bluetooth® and wireless LAN (Wi-Fi®) devices have not been confirmed. Therefore connections with all Bluetooth® and wireless LAN (Wi-Fi®) devices are not guaranteed. The product supports security features for wireless communications that are compliant with the Bluetooth® and wireless LAN (Wi-Fi®) standard specifications, but the security may not be sufficient depending on the usage environment and configuration. Be careful when making data communication using

Wireless LAN (Wi-Fi®) has the advantage that it can be freely connected anywhere within the radio wave range, as it uses radio waves for exchanging information. At the same time, there is a risk that a malicious third party may obtain unauthorized access if security settings have not been configured. You are recommended to configure security settings before using wireless LAN (Wi-Fi®) at your decision and responsibility.
The Company assumes no responsibility

for leakage of data or information that ma

Bluetooth® or wireless LAN (Wi-Fi®) function.

occur during Bluetooth®/wireless LAN (Wi-Fi®) communication. Since Bluetooth® and wireless LAN (Wi-Fi®) functions use the same frequency band, using the both functions at the same may cause radio wave interference resulting in decreased communication speed or disconnection from the network. If connection fails, stop using either of the Bluetooth® and wireless LAN (Wi-Fi®)

Notes on Data Communication Charge

· Since a constant Internet connection is possible with the product, data communication may be performed automatically by some applications resulting in high data communication charges. Therefore, subscription to a data communication charge discount service or flat late plan is recommended.

Communications that occur when browsing websites, downloading applications, etc., communicating with applications, sending/ receiving e-mails, and performing various settings on this product are connected via the Internet, and data communications will be charged.

· When you end a call, please make sure that

operation, the call charge will be high.
